- Draft sent to Data Subcommittee by March 4th to review/finalize
- ALL Updates Due March 25, 2022

TSIS 2022-2026: NHTSA TRA Responses

Florida Cloud-Based TSIS Phase II (Feasibility Study)

presented to
TRCC

Project Overview

Phase I Findings/Recommendations

- Concluded 9/10/21
- Focused on current state of 6 TR datasets to assess data integration opportunities and cloud adoption to improve traffic safety analysis and access.
- Recommendation- FDOT to consume S4 Analytics

Phase II Scope *(pending approval)*

- Detailed Business Case to move S4 into FDOT Cloud
- Develop use cases for EMS data exchange and vehicle & driver data currently being shared w/S4 through crash/citation reports

Cloud-Based TSIS Phase II

Current Status

Constructing/Finalizing FDOT Leadership Proposal Doc

- Proposed Item 1: Relocating S4 data into an FDOT controlled cloud environment
- Proposed Item 2: Consuming the S4 System w/in FDOT

Next Steps

- Meeting TBD w/TRCC EB to discuss outcome and needs of Phase II Scope
- Meeting TBD w/Data Subcommittee to finalize/approve Scope II

Agency Data System Updates FLHSMV & FDOT

presented to
TRCC

Agency Data System Updates
