CRASH AND UNIFORM TRAFFIC CITATION (UTC) DATA IMPROVEMENT

Florida Department of Highway Safety and Motor Vehicles

"FLORIDA"
ARRIVE ALIVE
"BUCKLE UP"

FFY 2025: Q4 Crash & UTC Data Improvement Grant Melissa Gonzalez, Operations & Management Consultant Manager

Objective 1- Crash

Create a work plan to improve the accessibility of the Accuracy, Completeness, and Timeliness (ACT) Report.

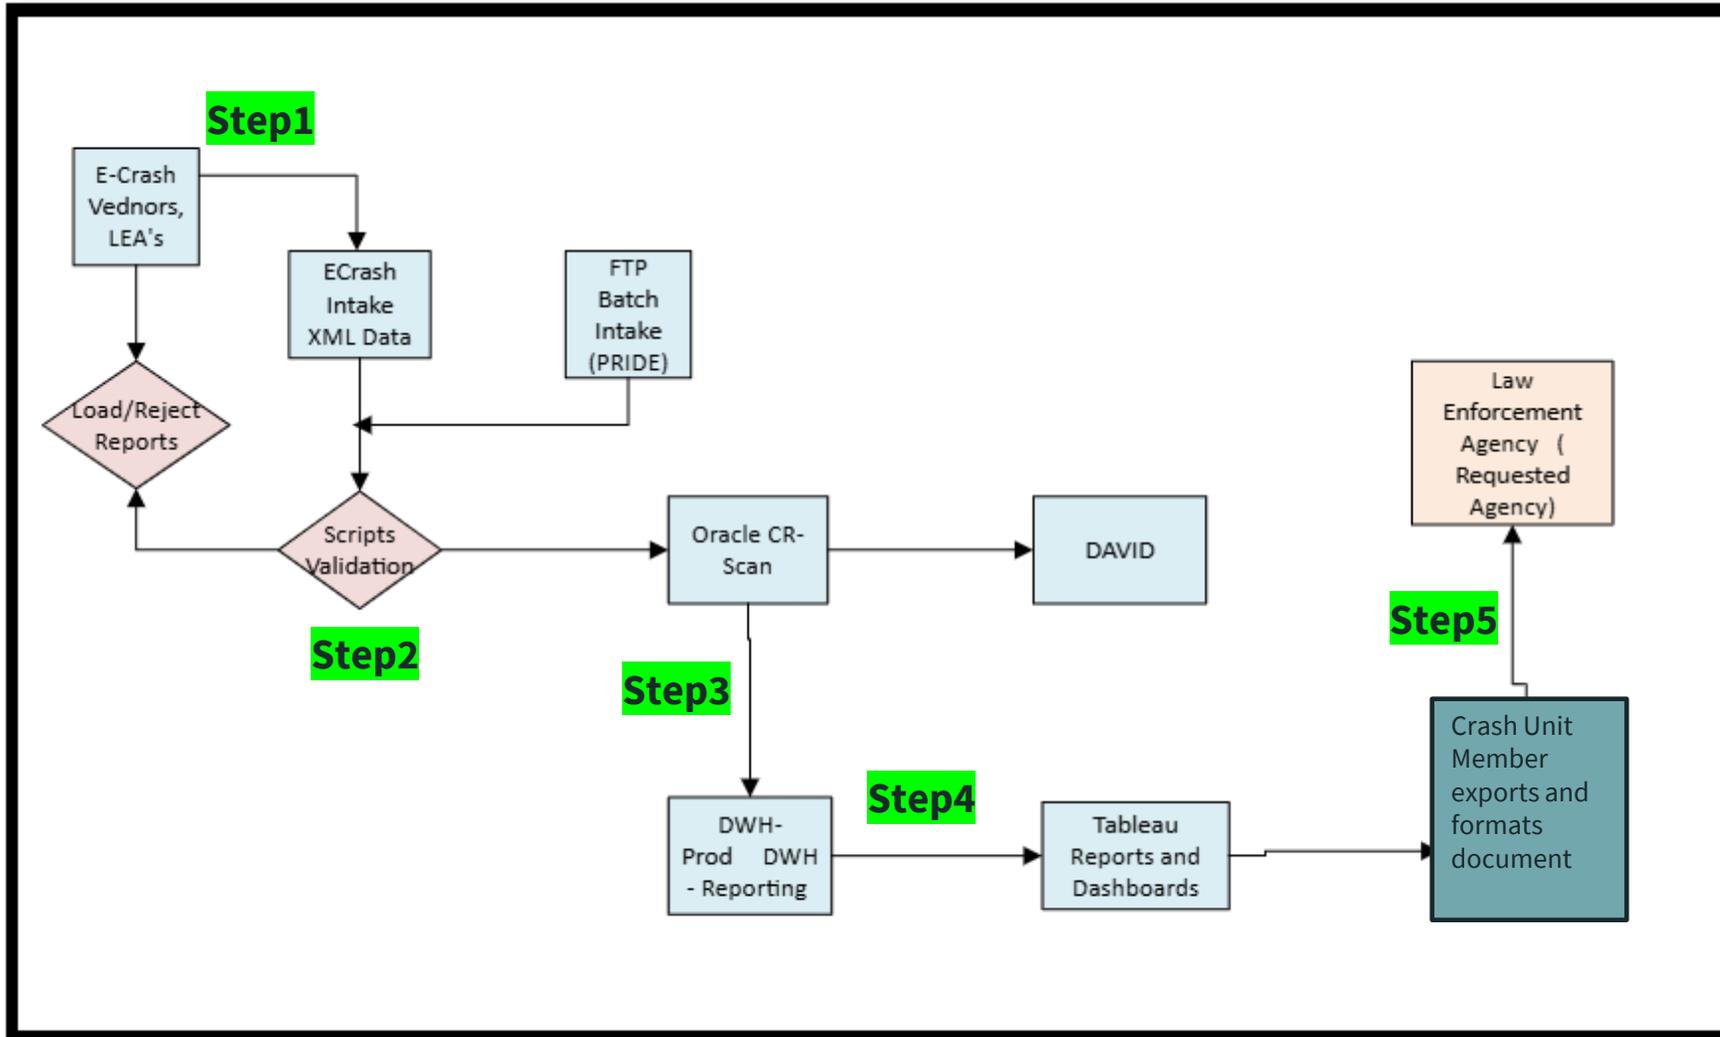

Status: Final draft reviewed on 9/16/25;

Next Steps: Complete final edits by 9/30/25

Workplan contents:

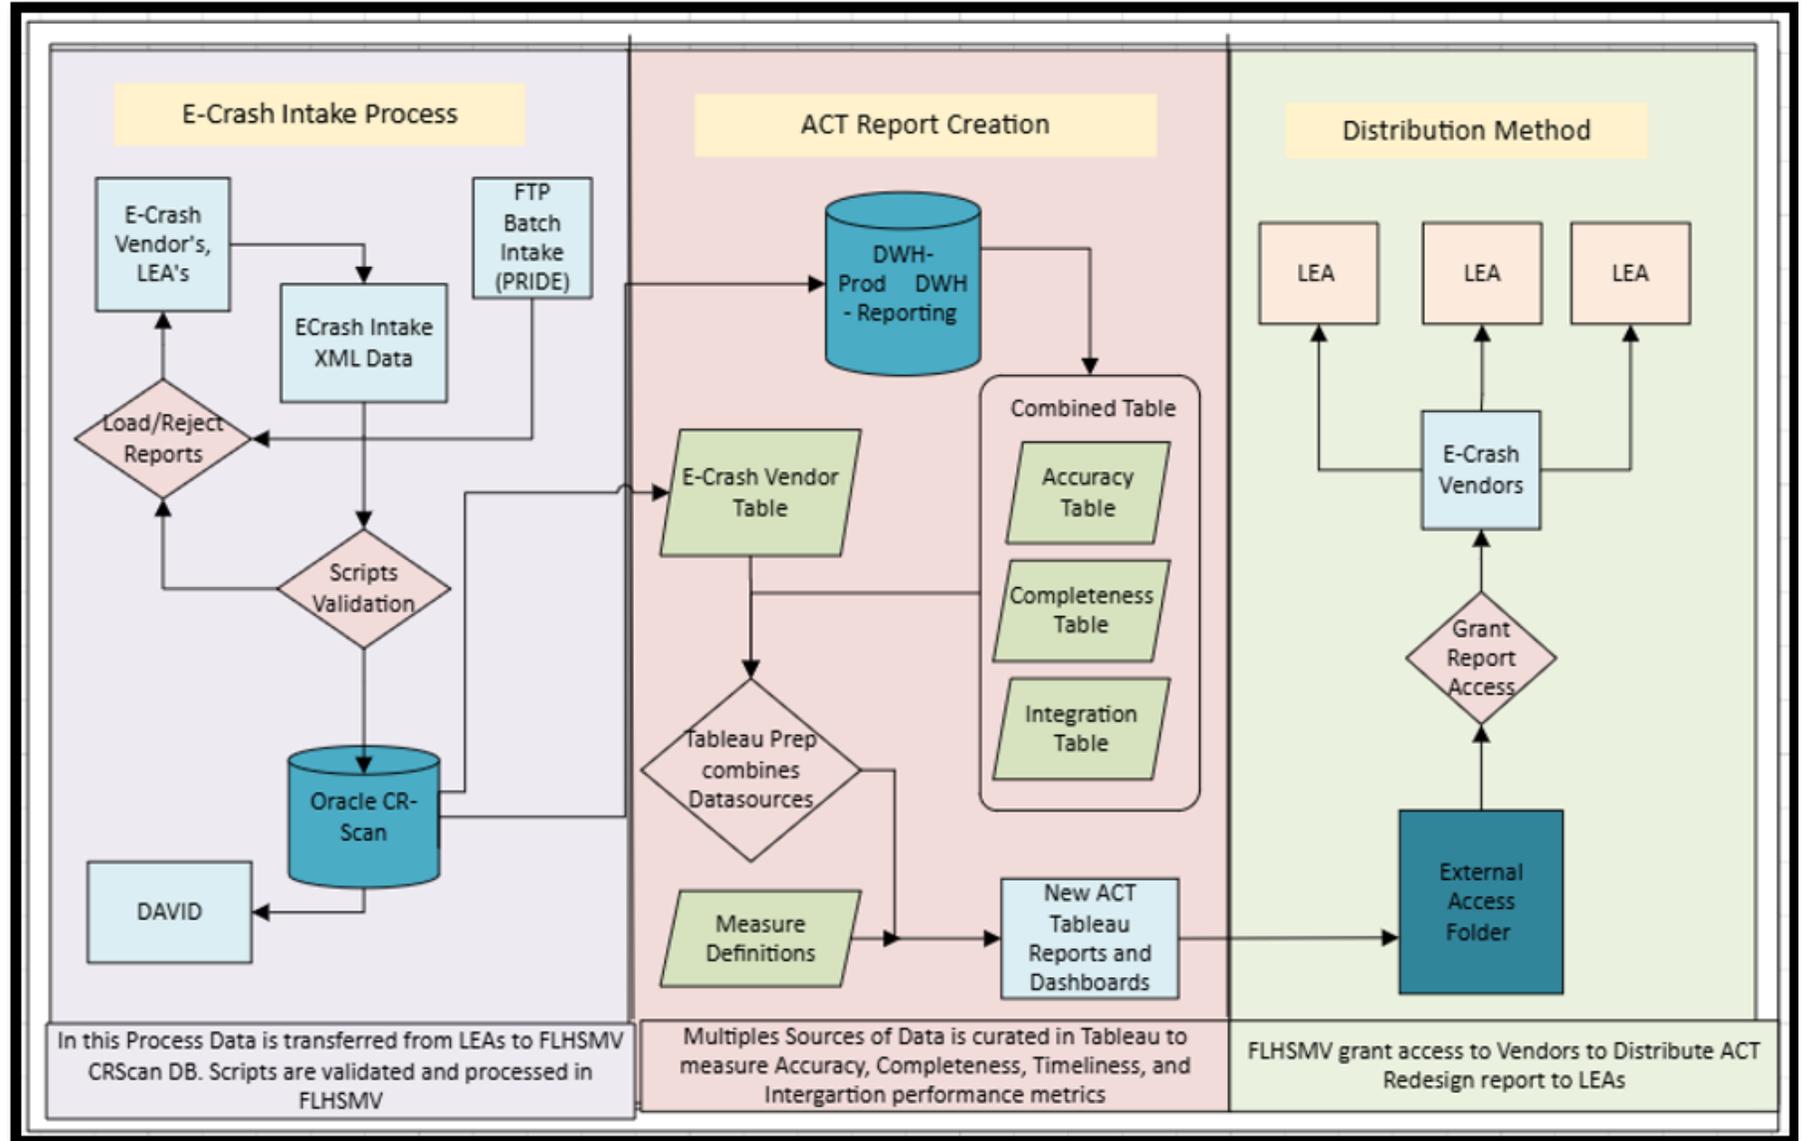

- Project SOW, business requirements, assumptions & constraints
- “As-is” state of ACT Report – manual generation process, system workflows, data sources, tools, etc.
- “Future” state - new automation process, data flows, tables, & distribution method
- Construct method of new vehicle and driver data integration performance measures to ensure consistency of FLHSMV datasets: Crash, UTC, DL, MV registration

“AS – IS” ACT REPORT

“FUTURE STATE” ACT REPORT

- Automated data process
- Implemented Tableau Prep
- Increase performance measure flexibility to meet business needs
- FLHSMV controls via external access folder
- Vendor distribution method

Objective 2- Crash

Implement
enhancements to the
ACT Report to
improve
accessibility

Status: Completed

- E-crash vendor has ability to view/print/email ACT report
- Initial demo conducted w/TraCS and ELVIS on 9/3/25

Next Steps: Provider Support Agenda Item - Demo ACT Report

Benefits:

- 1) Automation- reduces FLHSMV staff resources
- 2) Controlled permissions are in place (vendor only sees LEAs they serve)
- 3) Vendor insight into “software score” by providing stats for ALL LEAs or SINGLE LEA viewpoint
- 4) Provides vendor direction for potential software trainings or software resolutions to implement

ACT Report: Summary

A report detailing the data quality of crash data successfully submitted to FLHSMV

AGENCY_NAME

Verified Vendor

Month Date
August 2025

Accuracy Measure : August 2025

Error Count: 260

Total Checks: 14,088

0K 2K 4K 6K 8K 10K 12K 14K 16K

--- Accuracy measures the internal consistency, cross validations, and edit checks within crash repo. ---

Timeliness : August 2025

49 - LATE
3.5%

1,342 - On-Time
96.5%

* Late is described as reports that are submitted 10 days after crash date *

Completeness Measure : August 2025

Error Count: 307

Total Checks: 42,492

0K 5K 10K 15K 20K 25K 30K 35K 40K 45K

--- Completeness measures whether required crash report fields were completed ---

Integration Measure : August 2025

Error Count: 379

Total Checks: 5,941

0K 1K 2K 3K 4K 5K 6K

Value

--- Integration measures the consistency between the Crash, Driver, Vehicle, and UTC databases ---

Total Checks: The total amount of performance measure checks assessed on the crash data.
Error Count: The amount of performance measure checks that may contain discrepancies...

Summary Report

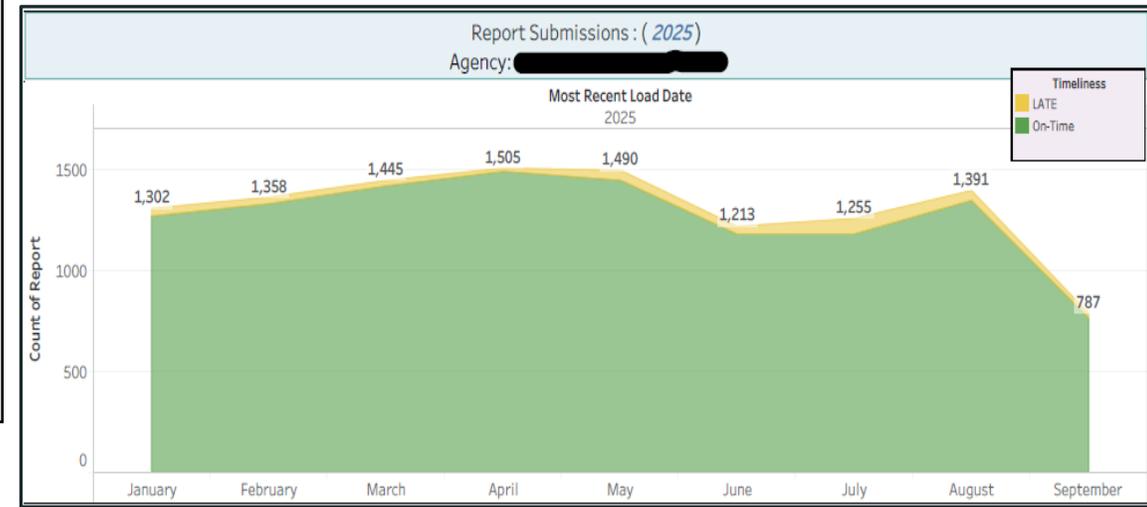

Agency: [REDACTED]

	Most Recent Load Date 2025			
	May	June	July	August
Count of Report	1,490	1,213	1,255	1,391

Integration Measure Descriptions

Item Desc	Code	Measure Desc..	Crash Elements Affected	Error Message
Person	P-02	Verified UTC Violation	Citation Number	Verification that a valid Uniform Traffic Citation (UTC) number that was utilized on the crash report matches a used citation in FLHSMV UTC data.
	P-03	Verified UTC Violator	First Name, Last Name, Citation Number, Driver License Number	Verification that a UTC Violator is correctly cited for the citation listed on the crash report. This cross references the FLHSMV UTC data.
	P-04	Verified FL DL Name	First Name, Last Name, State (DL), Driver License Number	Verification that the Driver Name and the Driver's License Number are consistent with the FLHSMV Driver License data. Excludes OOS and no-license drivers.
	P-05	Verified FL DL D.O.B	First Name, Last Name, State (DL), Driver License Number, Date of Birth	Verification that the Date of Birth and the Driver's license number are consistent with the FLHSMV Driver License data. Excludes OOS and no-license drivers.
	Vehicle	V-01	Verified V.I.N	VIN, Hit and Run
V-02		Verified Vehicle Style	VIN, Style (vehicle), Hit and Run	Verification that a the Vehicle Style and VIN are consistent with the FLHSMV Motor Vehicle Registration data. Excludes Unknown Vehicles and Hit and Runs.

Objective 3: Expand the ACT Reports to include vehicle and driver accuracy and completeness measures

Data Flow: Integration P-04 Verified Driver Name

P-04	Verifired FL DL Name First Name, Last Name, State (DL), Driver License Number	Verification that the Driver Name and the Driver's License Number are consistent with the FLHSMV Driver License data. Excludes OOS and no-license drivers.
------	---	--

UTC Objective

State-to-State (S2S) Verification Service

The S2S Verification Service is a means for states to electronically communicate.

S2S satisfies these key business requirements:

- limits a person to one Driving Record
- enables a state to determine whether a person holds a Driving Record in another state
- enables a state to send a request to another state to surrender or invalidate a DL/ID
- limits a person to one REAL ID credential (either a DL or an ID) by enabling a state to determine whether a person holds a REAL ID credential in another state

Objective 4- UTC

Identify and resolve duplicate credentials to improve uniformity of driver history data.

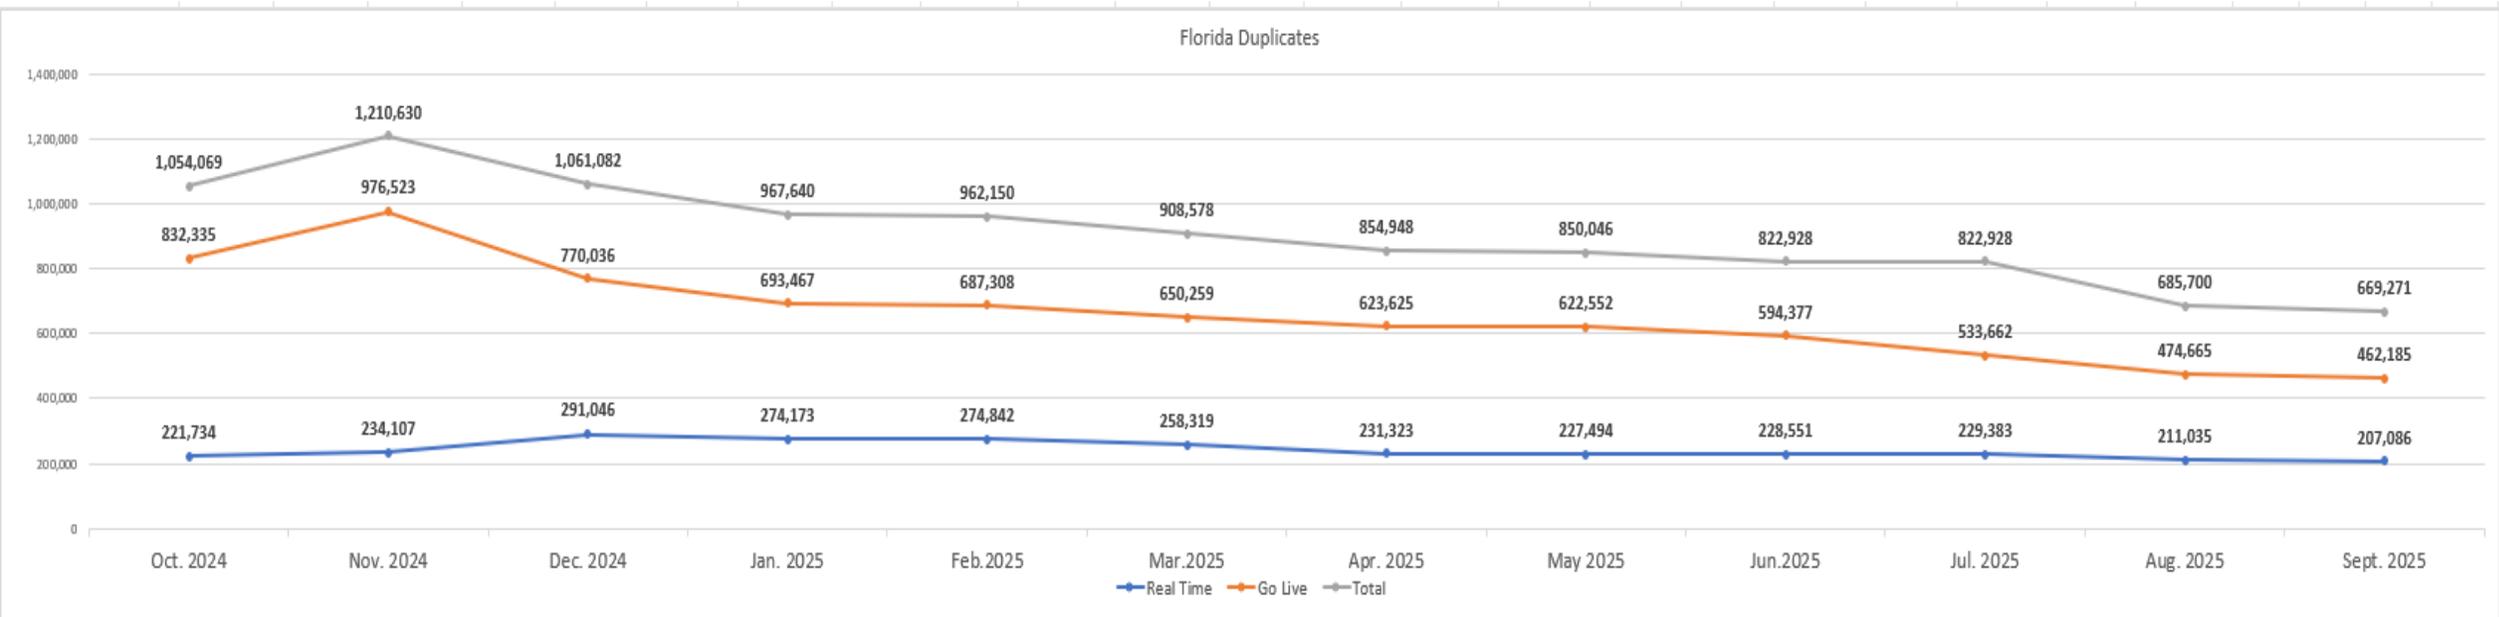

Resolved Duplicates	
Quarter / Month	Total Duplicates Resolved
Q1: Oct 2024	9,021
Q1: Nov 2024	6,600
Q1: Dec 2024	6,833
Q2: Jan 2025	6,138
Q2: Feb 2025	3,767
Q2: March 2025	3,982
Q3: April 2025	4,187
Q3: May 2025	5,798
Q3: June 2025	6,871
Q4: July 2025	7,843
Q4: August 2025	6,300
Q4: Sept 2025	3,355
Grand Total	70,695

Duplicates are identified:
At the time of an original issuance of a FL credential

or

Due to an existing “active or already issued” credential from another state identified when a state onboards to S2S

Duplicate Stats: Oct. 2024- Sept. 15, 2025

Go Live (orange): FL + new states onboarding = 462,185

Real Time (blue): present customer DL issuance = 207,086

Grant Total as of 9/15/25 (gray) = 669,271

FFY 2025 Driver and Vehicle Data Quality Improvement Grant

Grant Objectives

Create a project plan to implement project goals for the driver and vehicle data systems.

Develop performance measure(s), including baseline measurements, and establish numeric goals to evaluate performance for the:

- Driver records system
- Vehicle records system

Identify recommendations for ongoing monitoring and evaluation of data quality for the driver and vehicle systems.

EMS Data Standard Versioning 10-Year Project Plan

Legend

- Consensus:** Stakeholders review and reach agreement on revisions.
- Software Build:** Software developers create and release tools for the new version.
- Live:** Version is complete, software is available, and data can be submitted to the TAC.
- Continuing to accept data:** Records in this version are accepted by the TAC.
- Discontinued:** Records in this version are no longer accepted by the TAC.

January 2023, supersedes previous drafts. Calendaring represents approximate start/end dates and should not be construed to represent a set schedule. Actual schedules will be developed as milestones approach. Last Updated: April, 2024

Type of Release

- Informational Release:** Includes corrections to the dictionary (e.g., typos, comments, update links). The release is "backwards compatible" (e.g., ePCR record generated in v3.5.0 is valid in v3.5.1).
- Minor Release:** Includes changes that are more permissive to the data standard (e.g., new optional elements or changing an error to a warning). The release is "backwards compatible".
- Major Release:** Includes changes that may be more restrictive (e.g., upgrading an element from state or optional to national). This release is NOT "backwards compatible" to the previous version.
- Critical Patch:** Corrects security or functionality that seriously compromises the daily function of the standard. Released as needed.

FY 24/25 Objectives

Uniformity/Accuracy

Publish an update to the Florida Data Dictionary with business rules for NEMESIS 3.5.1 by September 30, 2025.

- ✓ **Completed Monthly updates to State Data Set – October and March**
- ✓ **Completed Quarterly Business Rules Review**
- ✓ **Completed Business Rule Schematron Update – October and March**
- ✓ **Completed review of new V3.5.1 elements – December**
- ✓ **Completed review/impact of implementation of Presidential Executive Orders**
- ✓ **Continued review of NEMESIS/MIH elements**
- ✓ **Completed – formal approval target 10/1/25**

Florida's V3.5.1 Timeframe

- **Florida could begin receiving V3.5.1 submissions by 4th qtr 2025. (exact date TBD)**
- **Florida will continue to accept V3.5**
- **Florida agencies submitting V3.4 should migrate asap to the current version by 4th qtr 2025**

FY 24/25 Objectives

Completeness

Participate in NEMESIS Technical Advisory Conference and NASEMSO annual meetings to finalize the implementation strategy.

- ✓ **Participated in NEMESIS Technical advisory calls – biweekly**
- ✓ **Participated in NASEMSO calls – monthly or as scheduled**
- ✓ **NEMESIS Technical advisory Conference – virtual attendance**

Conduct four EMS Advisory Council Data Committee worksessions to continue maintaining Florida data standards, business rules and implementation best practices consistent with NEMESIS.

- ✓ **EMSAC Data Committee**
 - 10/29/24 – completed**
 - 12/12/24 – completed**
 - 01/08/25 – completed**
 - 04/18/25 - completed**
 - 06/11/25 - completed**
 - 07/18/25 - completed**
 - 07/25/25 - completed**
 - 08/15/25 - completed**

FY 24/25 OBJECTIVES

Accuracy

Monitor and report (quarterly) on a minimum of three data quality measures in addition to the NEMESIS data quality measures by September 30, 2025 (Measure data quality around 3 state Clinical performance measures).

Overall NEMESIS Data Quality

90%

- *Patient Information* 97% +1
- *Cardiac Arrest* 89%
- *Valid System Times* 98%
- *Injury Information* **78%**
- *Clinical Times Recorded* **78%** -2
- *Other incident Information* 97% +1

FY 24/25 OBJECTIVES

EMS Clinical Performance Measures

Accuracy

Monitor and report (quarterly) on a minimum of three data quality measures in addition to the NEMESIS data quality measures by September 30, 2025 (Measure data quality around 3 state Clinical performance measures).

***Implementation of Warnings Dashboard** - A tool designed to provide Regional Coordinators with additional insight into EMS warning messages to help us identify recurring issues, improve data quality, and enhance operational efficiency.*

Dashboard Overview:

This tool provides visibility into **warnings received in EMS ePCR reports**, allowing users to analyze data across key dimensions:

- Region
- Area –rural or urban
- Agency
- **Strategic Quality Measure**
- Software Company.
- Type of Rule
- Month

⚡ **Public Dashboard Release** – A similar version published on the EMSTARS webpage, showing data by region (RDSTF) excluding agency details.

[EMS Data Quality – Warning Messages Dashboard](#)

Warning by Strategic Measure

EMS Data Quality – Warning Messages Dashboard

Rule_From County Strategic_Measure

Definitions for the Dashboard

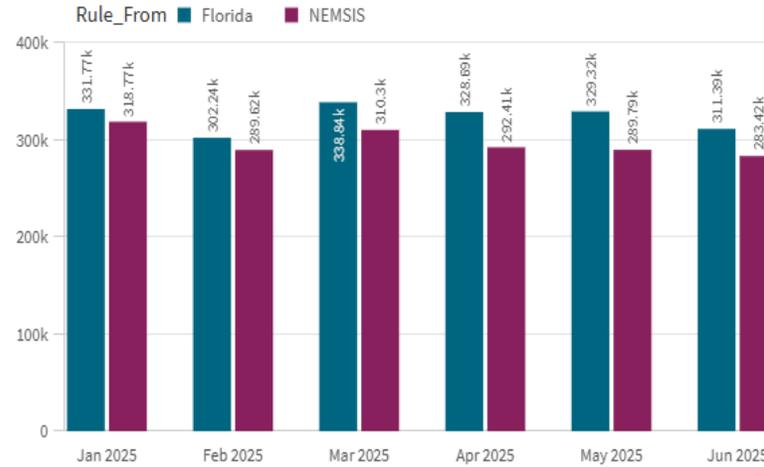

Warnings: A warning consists of a code and message that indicate a data rule violation, meaning some required information is missing in an ePCR record.

Types of Rules: Warnings are generated based on either Florida Rules or NEMSIS Rules (National Emergency Medical Services Information System). Both sets of rules apply to Florida's Data Dictionary.

Interpretation: Warning messages identify the data dictionary element that needs correction. Florida Warning Messages also include the affected element's code.

Note: A single ePCR record may contain multiple warnings.

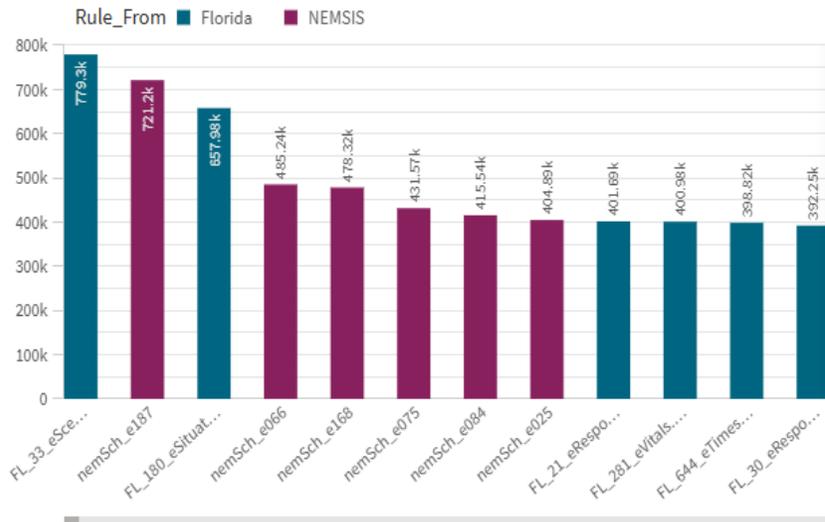

Number of Records per Warnings per Month

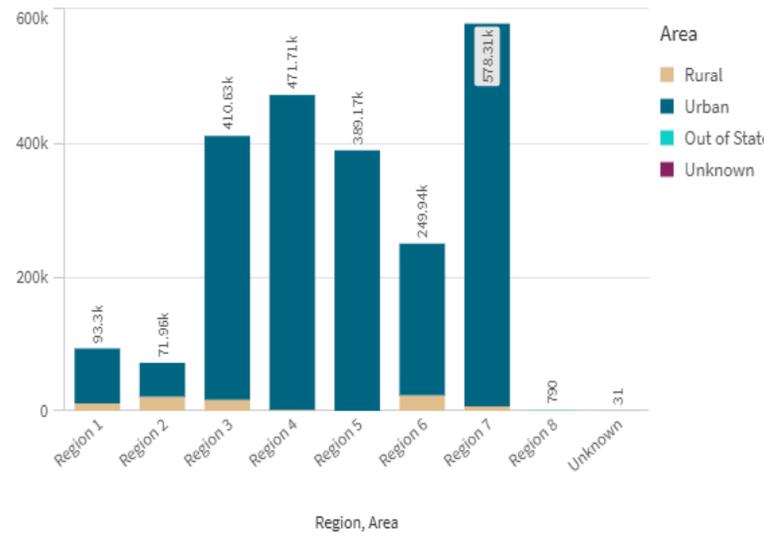

Number of Records per Warning

Warning_Code	Warning_Message	# of Records
Totals		2,265,850
FL_33_eScene.01	First EMS Unit on Scene (eScene.01) cannot equal a NOT Value when Unit Arrived on Scene (eTimes.06) has a date/time value.	779,297

TRAFFIC AND CRIMINAL SOFTWARE (TRACS) SUPPORT & ENHANCEMENT, AND TRAINING

Florida State University

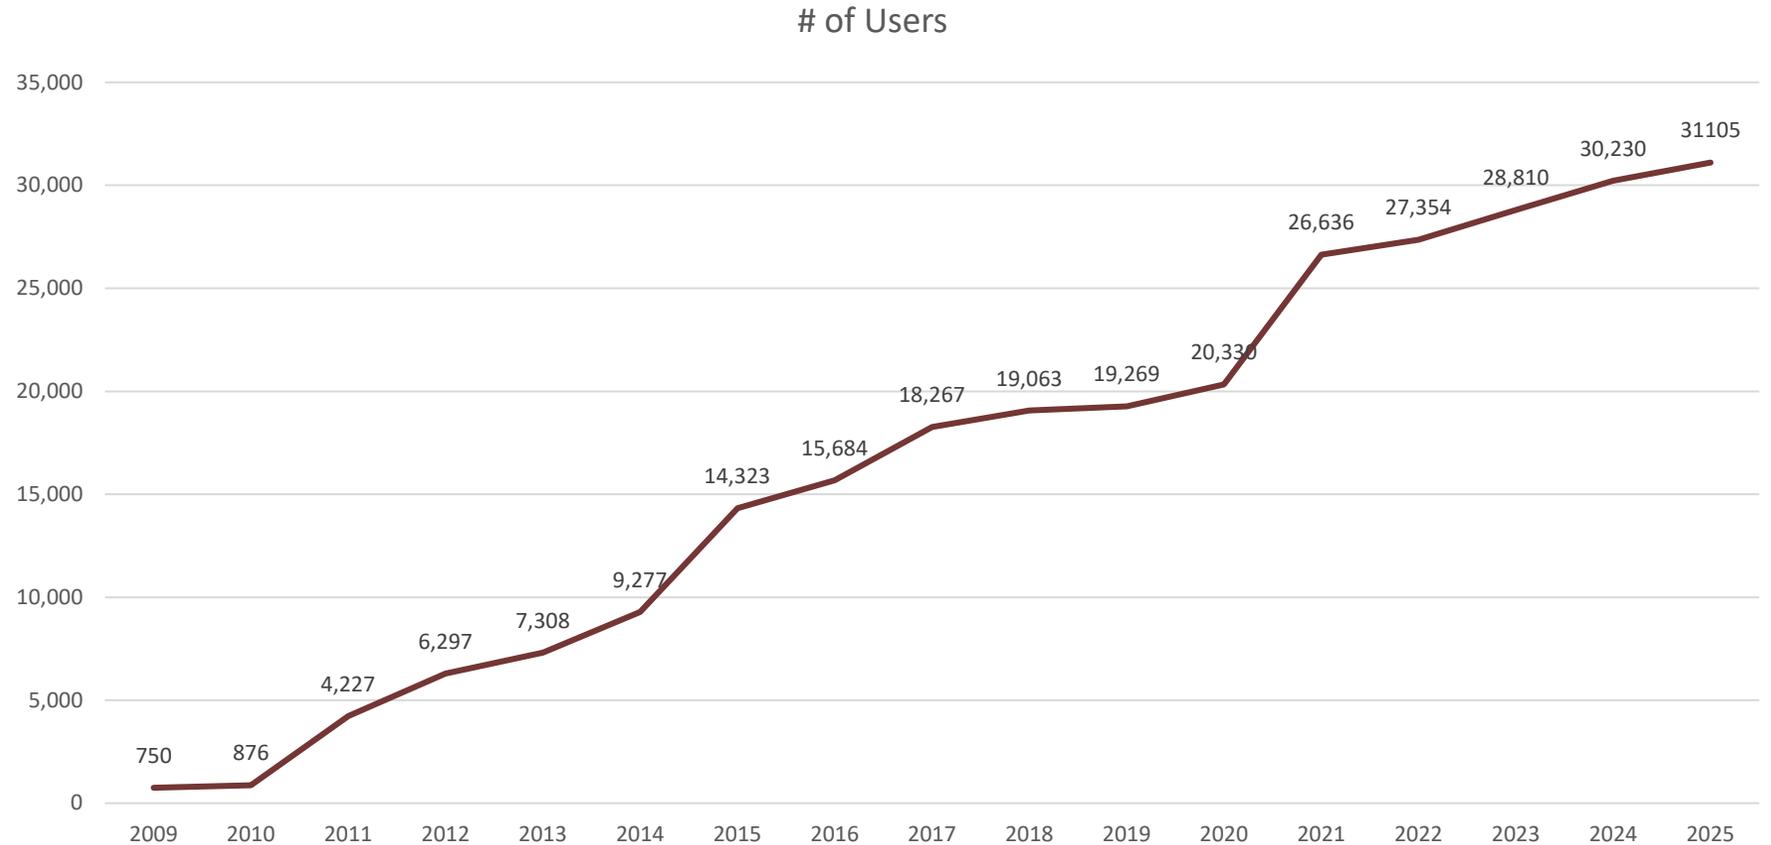

Traffic and Criminal Software (TraCS)

September 19, 2025

TraCS Growth - Users

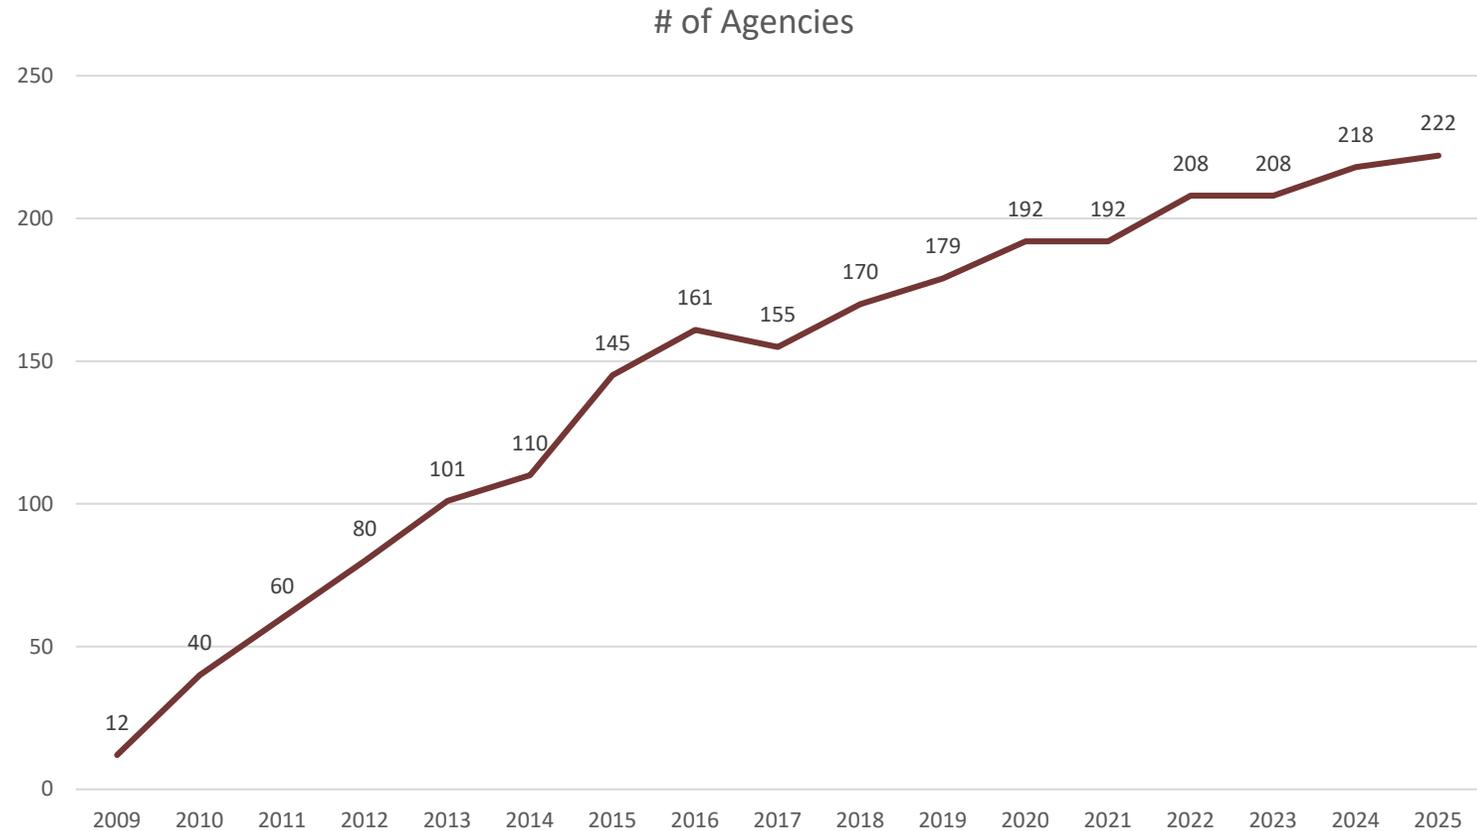

- Users

- 2008: 750
- 2025: 31,105

TraCS Growth - Agencies

- Agencies
 - 2008: 12
 - 2025: 222

Objective: Accuracy

- FY24-25: 99.99% (Q3)
- To maintain the low number of load errors for crash reports submitted electronically to FLHSMV using TraCS at less than one percent.

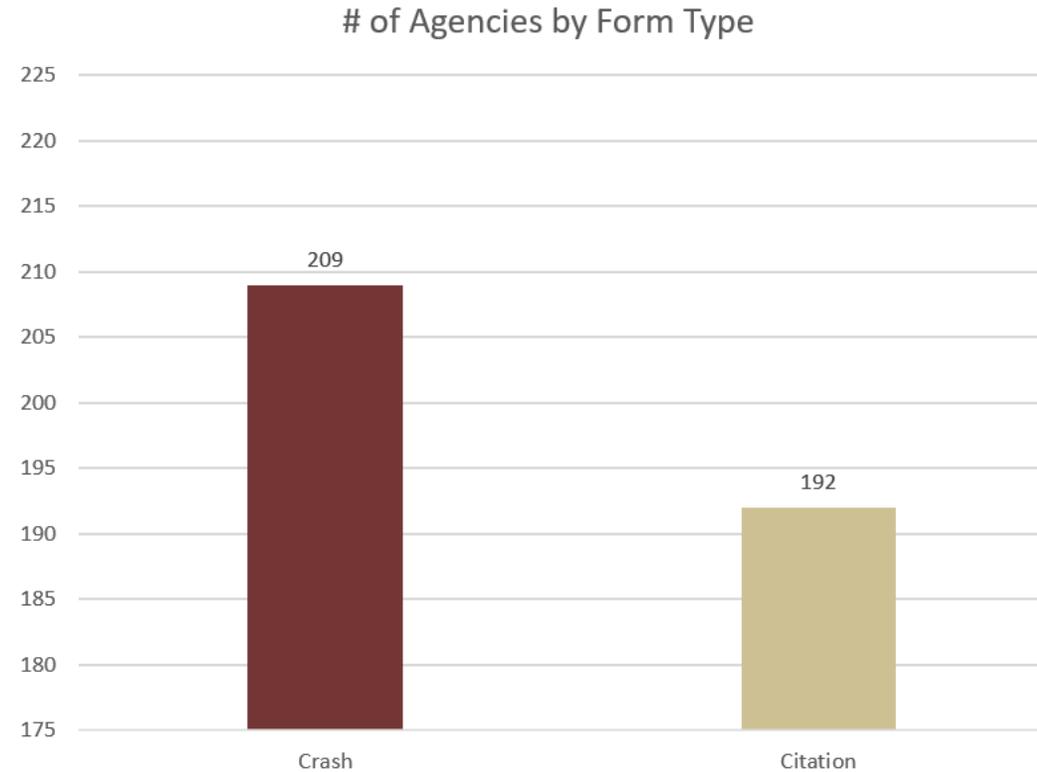

Objective: Completeness

- FY24-25: 44% (Q3)
- To maintain or increase the total percentage of statewide **crash reports** submitted electronically by agencies using the TraCS Florida software.
 - **174,214** total submitted electronically in Q3.
 - Of these, TraCS submitted **76,356**.

Objective: Uniformity

- To improve uniformity in data collection methods.

eCrash Submission Updates

- Cape Coral PD went live 1/21
- Davie PD went live 2/25
- Northwest Florida State College PD went live 4/1
- Springfield PD went live 4/8
- Parker PD went live 5/27
- Key West PD went live 6/9
- Surfside PD went live 7/30

eCitation Clerk Submission Updates

- Agencies are submitting paper in Broward & Escambia
- Plantation PD & Miramar PD:
 - 1st agencies in Broward County to go live with eCitation using TraCS by December 2025

Objective: Uniformity

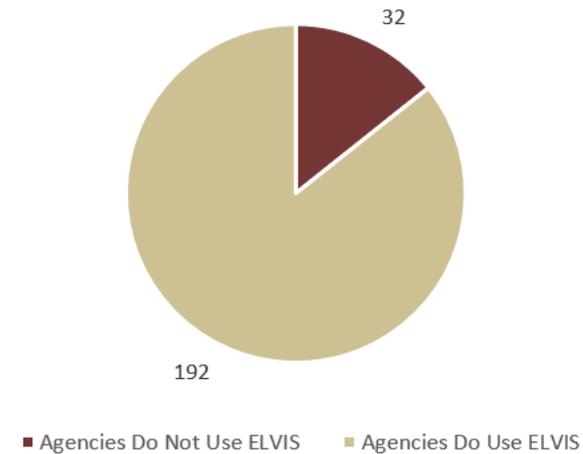

Citation Transmission to FCCC by Agency	Count
Does not use UTC	30
N/A	15
NO	128
YES	48
YES - Nassau County Only (not Duval)	1
Grand Total	222

Objective: Integration

- To maintain the number of agencies using FCIC/NCIC interfaces.
 - All agencies use an FCIC/NCIC interface

TraCS-ELVIS Integration Use

Objective: Integration

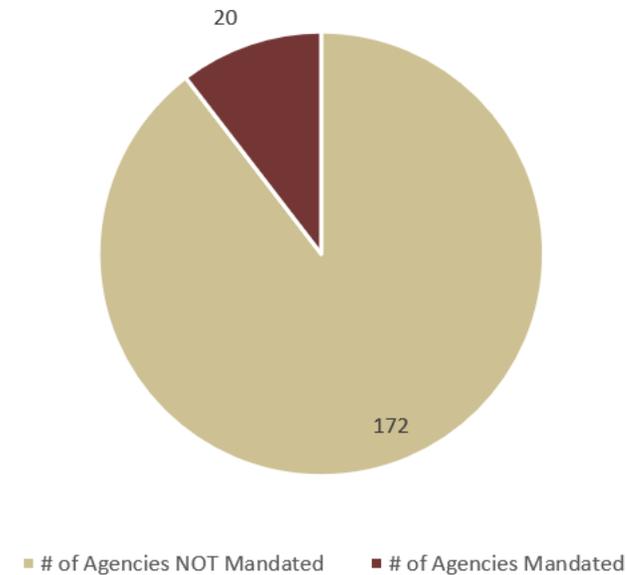

- To increase the number of TraCS agencies using a location tool to plot accidents on the crash form.
 - 13 agencies do not use our crash form
 - All agencies now have the mandate turned on.

Objective: Integration

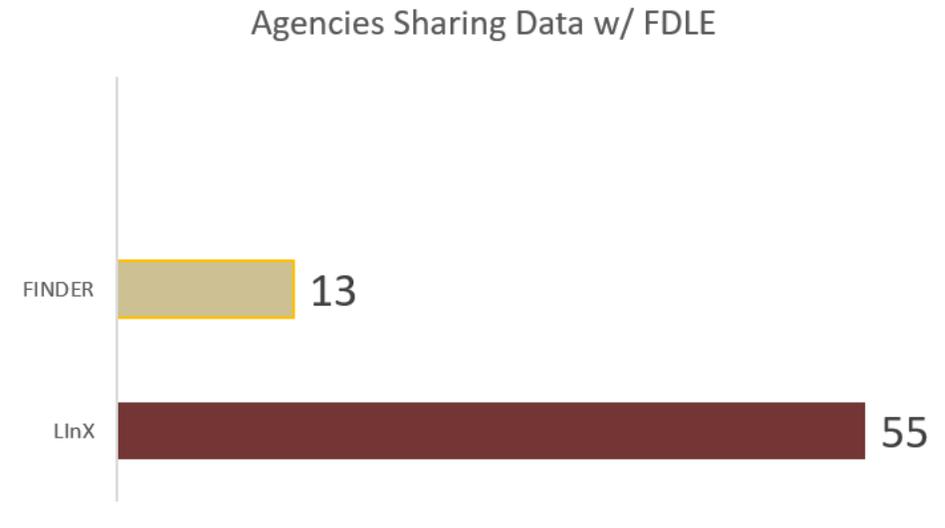

- To increase the number of TraCS agencies using a location tool on the citation form.

of Agencies Mandated to Use Signal 4 Location Tool on Citations

Objective: Integration

- Data sharing programs w/ FDLE

Objective: Integration

To Date: 201 agencies using the Signal 4 Diagram Tool

96% of total agencies using crash use this tool for diagramming.

FAMU-FSU
Engineering

Objective: Accessibility

- To maintain a primary data hosting site
 - Hosting data for 200 agencies
 - 22 still self-hosted

Objective: Timeliness

- FY24-25 Q3: 7.3 days average
- To encourage TraCS agencies to maintain a low average delay between the initial crash date and the date on which the data is entered into state crash databases owned by FLHSMV.

Support: FY 24-25

- Support
 - Onboard new agencies
 - Continue support for existing agencies
 - Continue training new support person
 - Produce more YouTube training videos
 - Update Media Wiki page
 - Hold Webinars
 - Migrate citation transmission jobs to submit to the eCitation repository (FCCC)
 - Manage exports of data to respective repositories

Support: FY 24-25

- Support
 - **Data site migration: In-progress**
 - Equipment installed at NWRDC
 - All Databases migrated
 - All mission-critical servers migrated
 - Ancillary servers in-progress

Development: 24-25

- Development
 - Expedite any changes required by FLHSMV for crash and citation
 - Approved for new citation revision 5/2025 for Option 4 (increased to 8 elections in lifetime)
 - Continue to deploy Multi-Factor Authentication (MFA) with TraCS for end users: DUO, Microsoft Authenticator, Google Authenticator
 - Test IP filtering to block unwanted traffic directly through TraCS
 - Continue building an electronic signature interface for violators
 - Maintain/improve interfaces (location tool, diagram tool)
 - Maintain existing and develop new interfaces for FCIC/NCIC vendors
 - Maintain/improve web-based analysis reports (location tool usage, diagram tool usage)
 - Continue to provide patches and upgrades to the TraCS software
 - Go live in production w/ submitting arrest data to FDLE

Thank you for your continued support!

Florida Department of Transportation

Welcome!

Team Members

- Dr. Lisa Spainhour, Principal Investigator
- Zoe Williams, Program Manager
- Margaret Edwards, Systems Administrator
- Terryon Larkins, Support/Development

September 2025 Statistics

Current ELVIS Usage

- 296 Agencies (+2 agencies since June)
- 43,306 user accounts (+1,100 since June)
- 27,367,461 queries run this fiscal year
- Nearly 2.35M queries per month
 - Increase of ~76,000 queries per month over June numbers

FY24-25

- **Completeness and Uniformity**

- As always, lots and lots of state parser fixes to keep up with changing state formats and ensure elements parse correctly from each state

- **Accuracy and Integration**

- Integration with external crash and citation vendors to improve data accuracy continues to be expanded and improved
 - TraCS
 - Axon
 - Mark43
 - LexisNexis
 - FINDER
 - Others

- **Security Features**

- Microsoft SSO and SAML Integration In Production
- Many agencies switching to SSO and Duo from Grid Cards
- SSO Integration allows for additional Two-Factor options like Microsoft Authenticator

- **Accessibility**

- Added 2 new agencies since June meeting
- 1,100 new user accounts
- Increase of approx. 76,000 queries per month since last TRCC meeting
- Evaluating future hardware requirements based on continuing increase in usage and current limitations
- Average FY up-time is 99.83% averaged over the current fiscal year
- Attended FDLE CJIS Symposium in July
- Attended Traffic Safety Challenge Awards in July
- Hosted Annual User Forum in Tampa in August

- **Upcoming Changes**

- Adding additional two-factor security methods for CJIS
- Adding new training materials
- Making UI Improvements
- Looking ahead to ELVIS 2.0
 - Includes major UI overhaul
 - Additional security features and user management
 - Will be designed to handle higher query volume

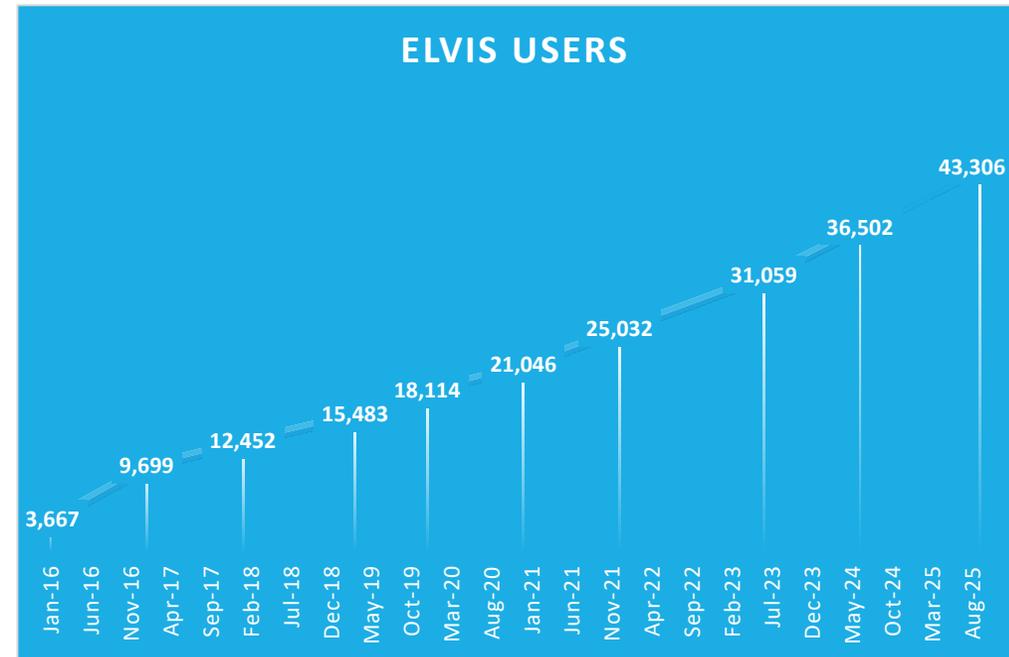

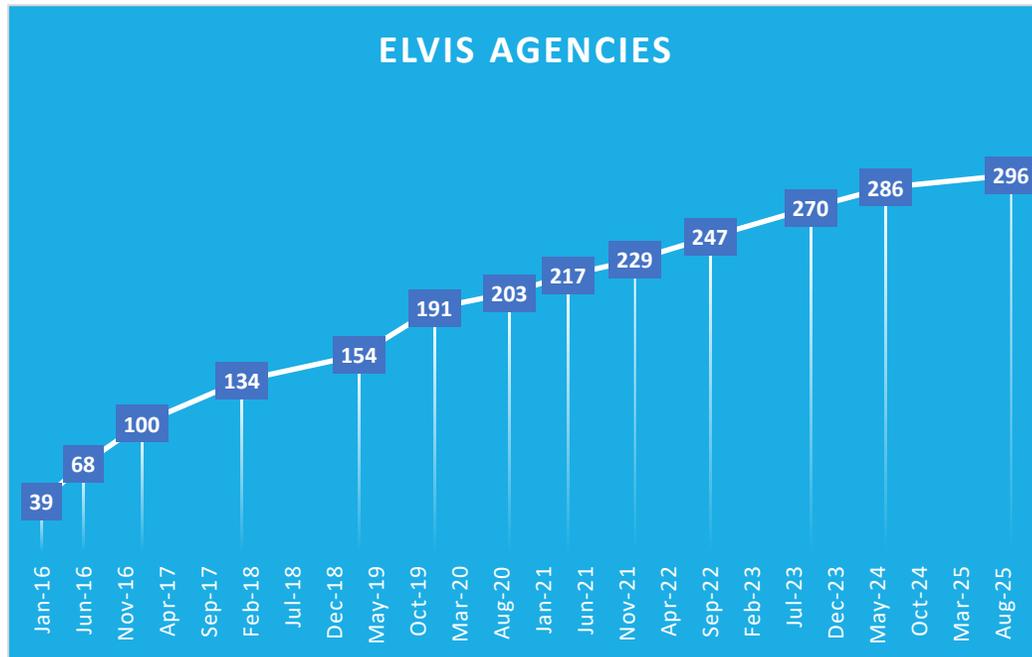

ELVIS Usage over time, 2016-Present

Law Enforcement Agencies

- 1/2016: 39
- 9/2025: 296

User Accounts

- 1/2016: 3,667
- 9/2025: 43,306

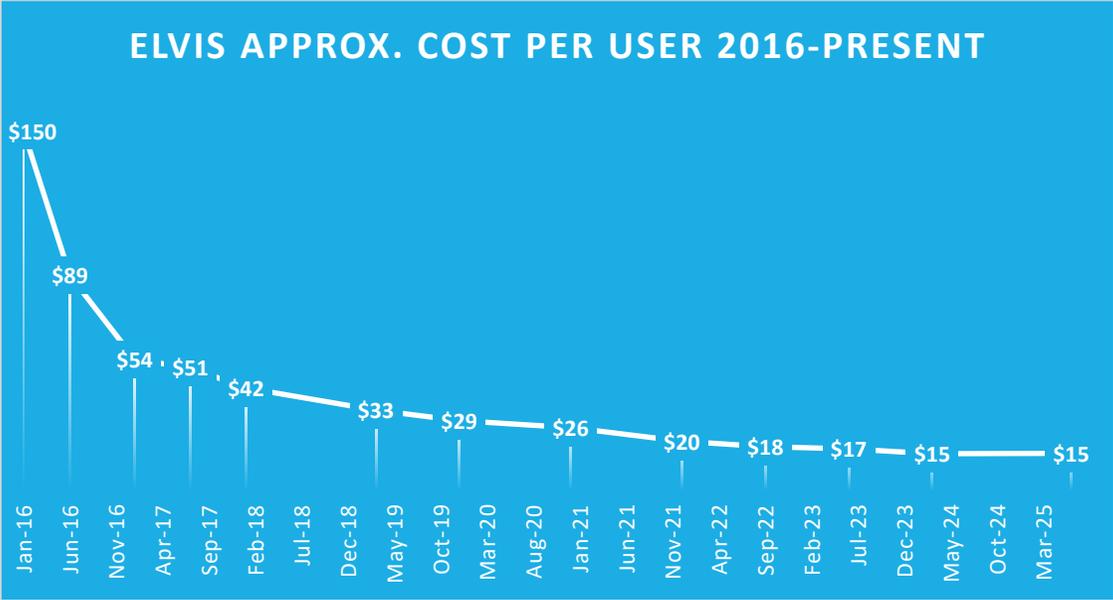

ELVIS Cost per User

FY24-25 Total Funding Request: \$633,00

Total users (as of 6/25/25): 43,306

Avg. Cost per User per Year: \$14.61

GEOLOCATION & CRASH DIAGRAMMING TO IMPROVE CRASH DATA LOCATION TIMELINESS AND QUALITY

University of Florida

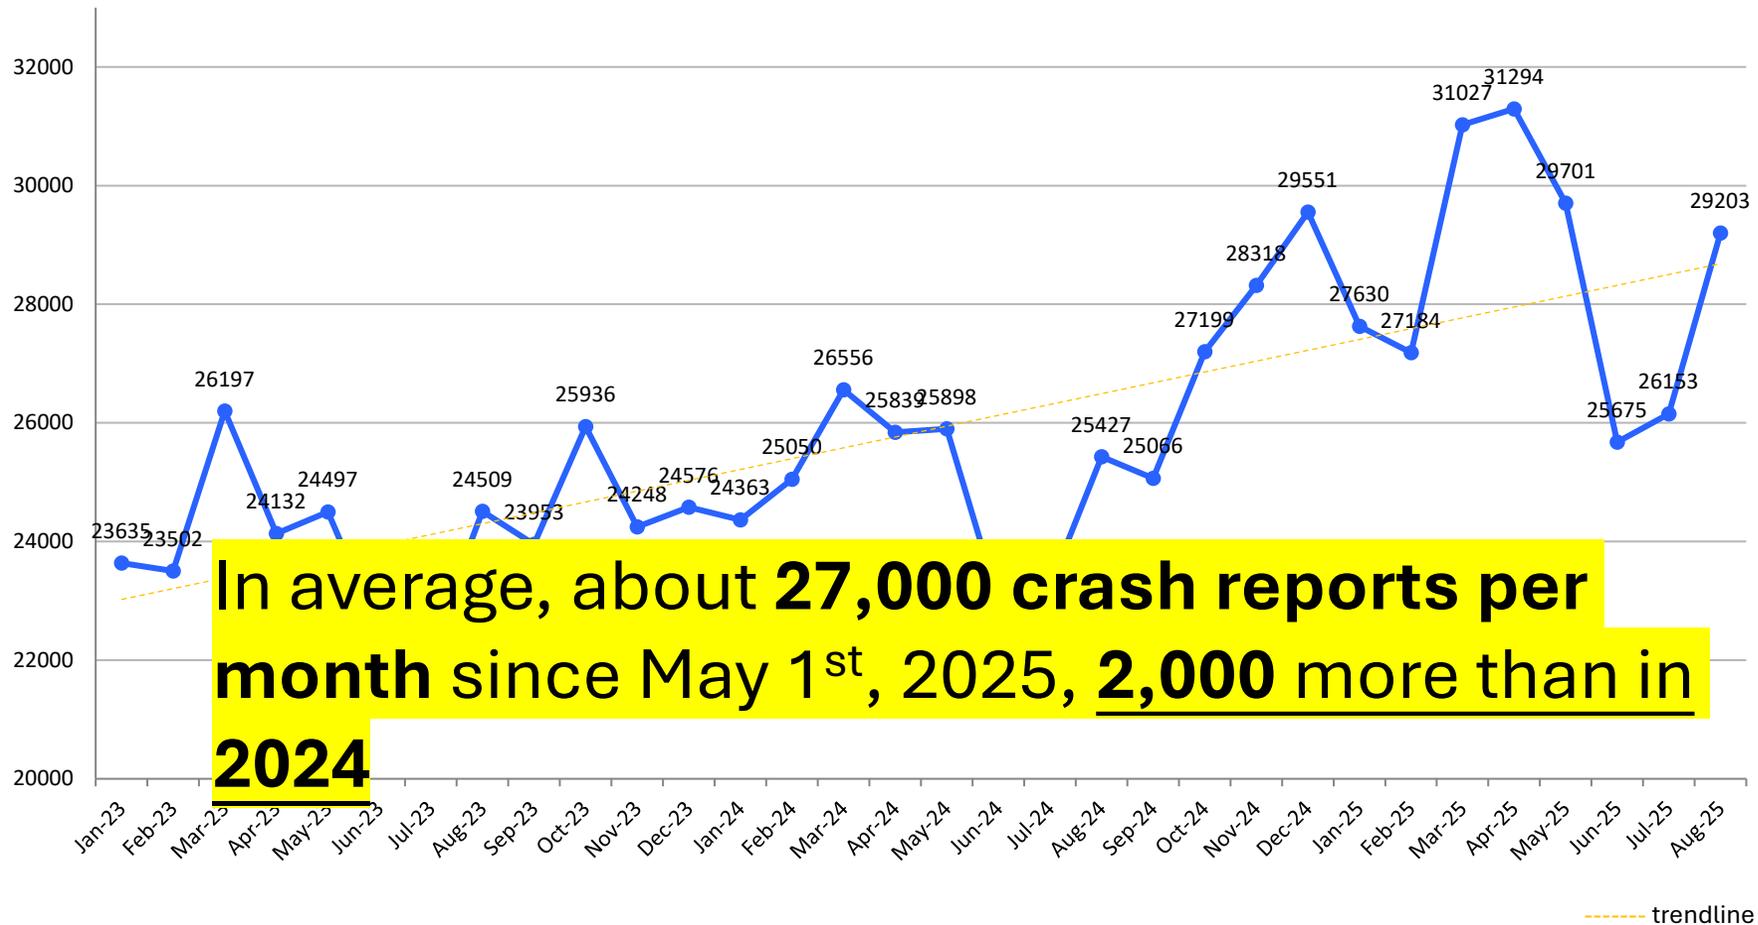

Objectives

- Improve the overall **accuracy, consistency** and **integrity** of crash reports statewide
- Tie **crashes** and **citations** to the FDOT **roadway** information (RCI)
- Addresses all **6 NHTSA's** crash location **data quality attributes**:
timeliness, accuracy, completeness, uniformity, integration, accessibility
- Benefits **beyond data**
 - Save time, reduce burden and improve reporting efficiency
 - Help **agencies** – less IT need, no installation, no cost
 - Help **e-crash / e-citation vendors** in the long run

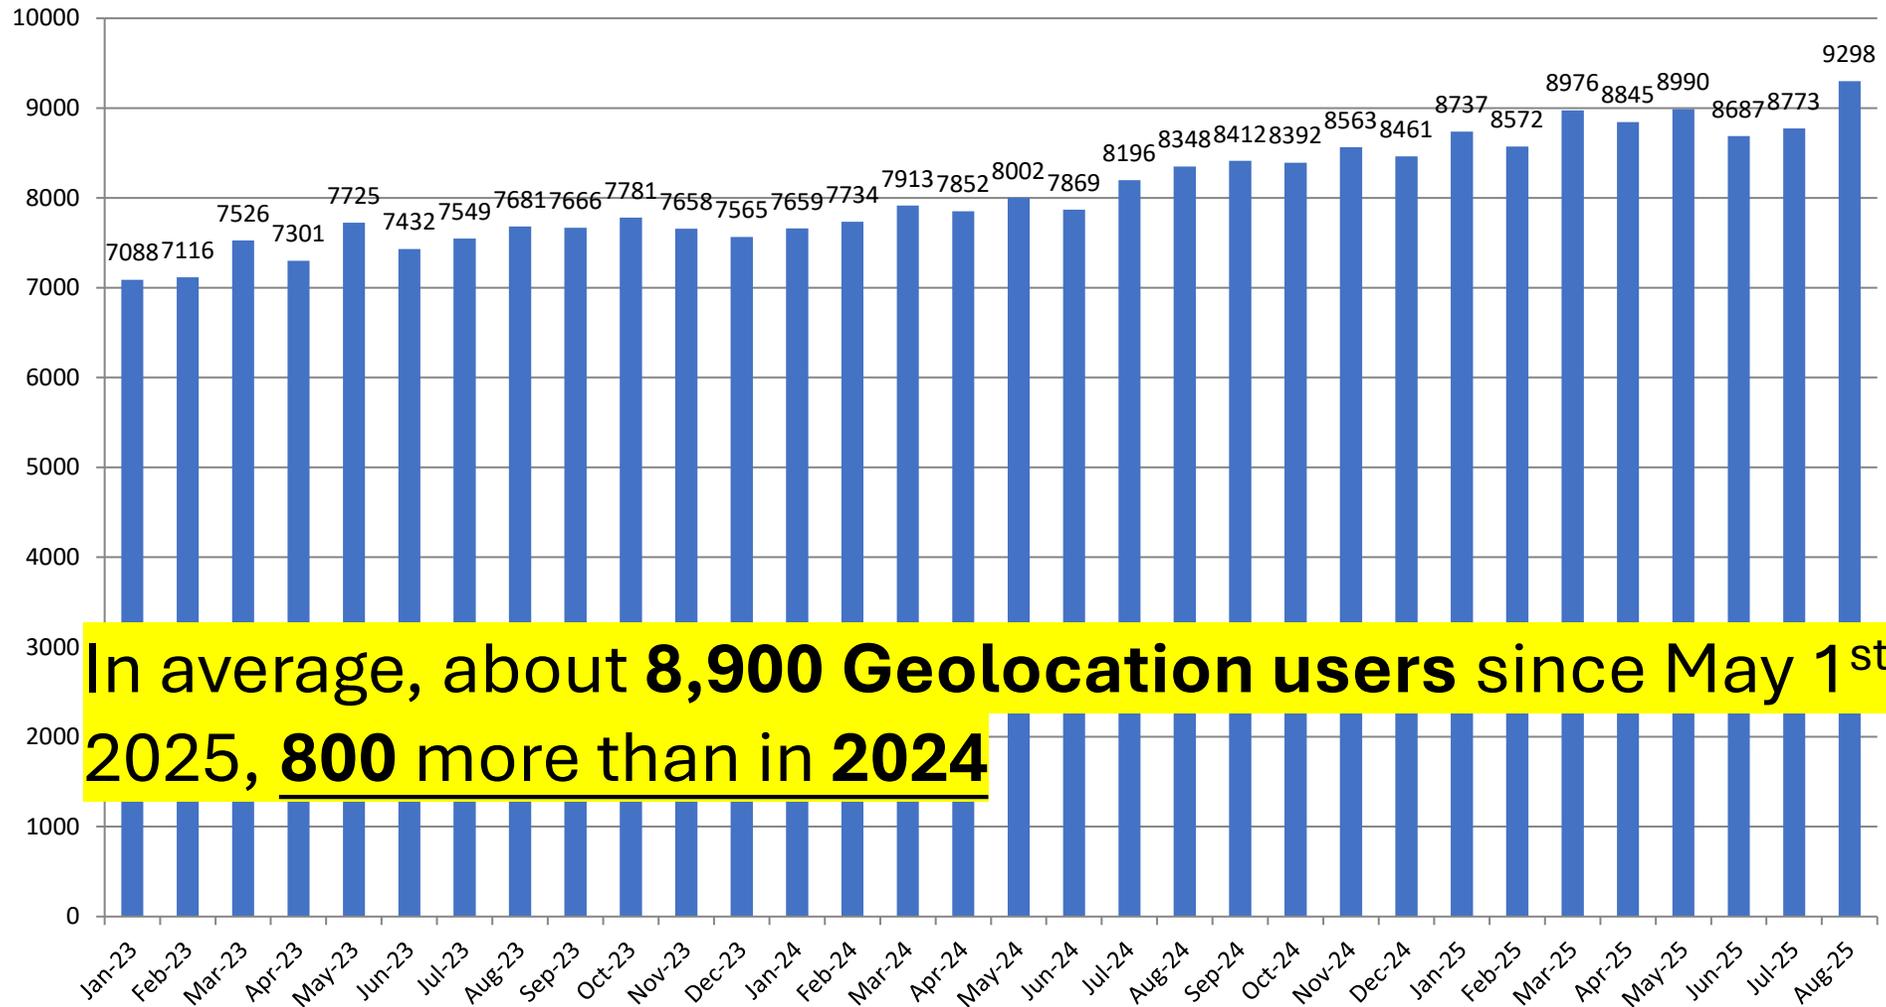

Geolocation Usage Stats

- **TraCS**
 - **100%** of agencies that report **crashes** (209 of 209)
 - **11%** of agencies that write **citations** (21 of 192)

Crashes Mapped by Geolocation Tool

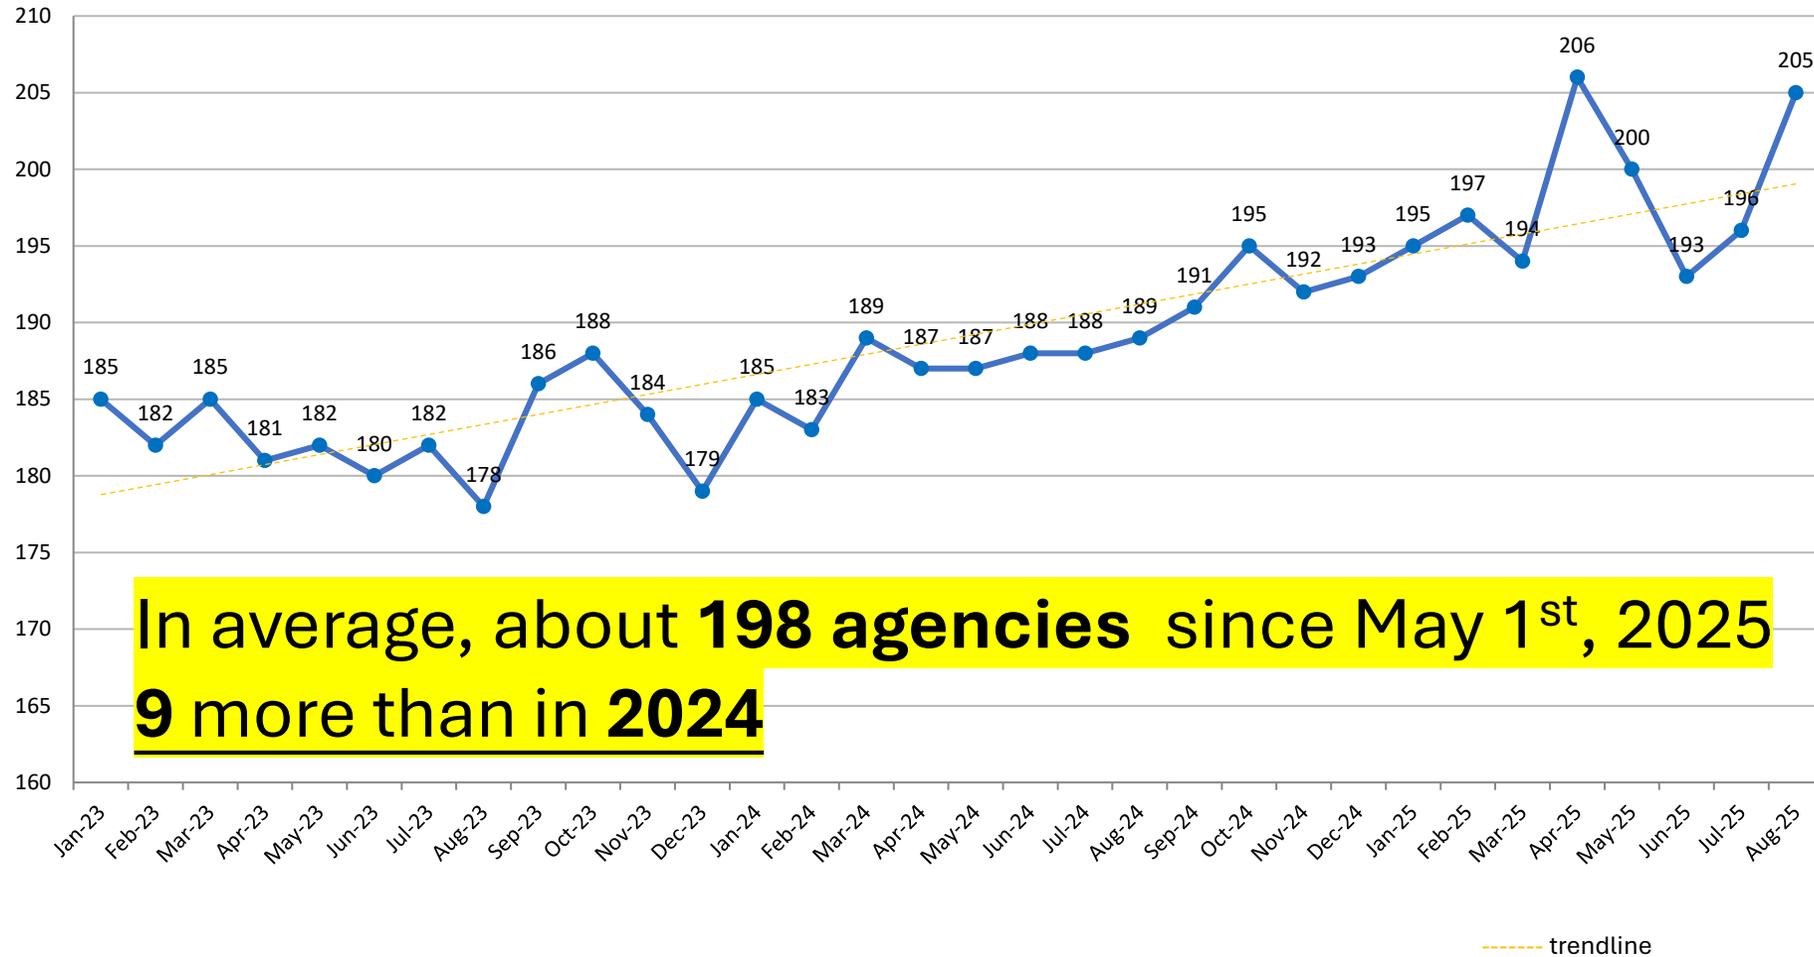

Geolocation Users

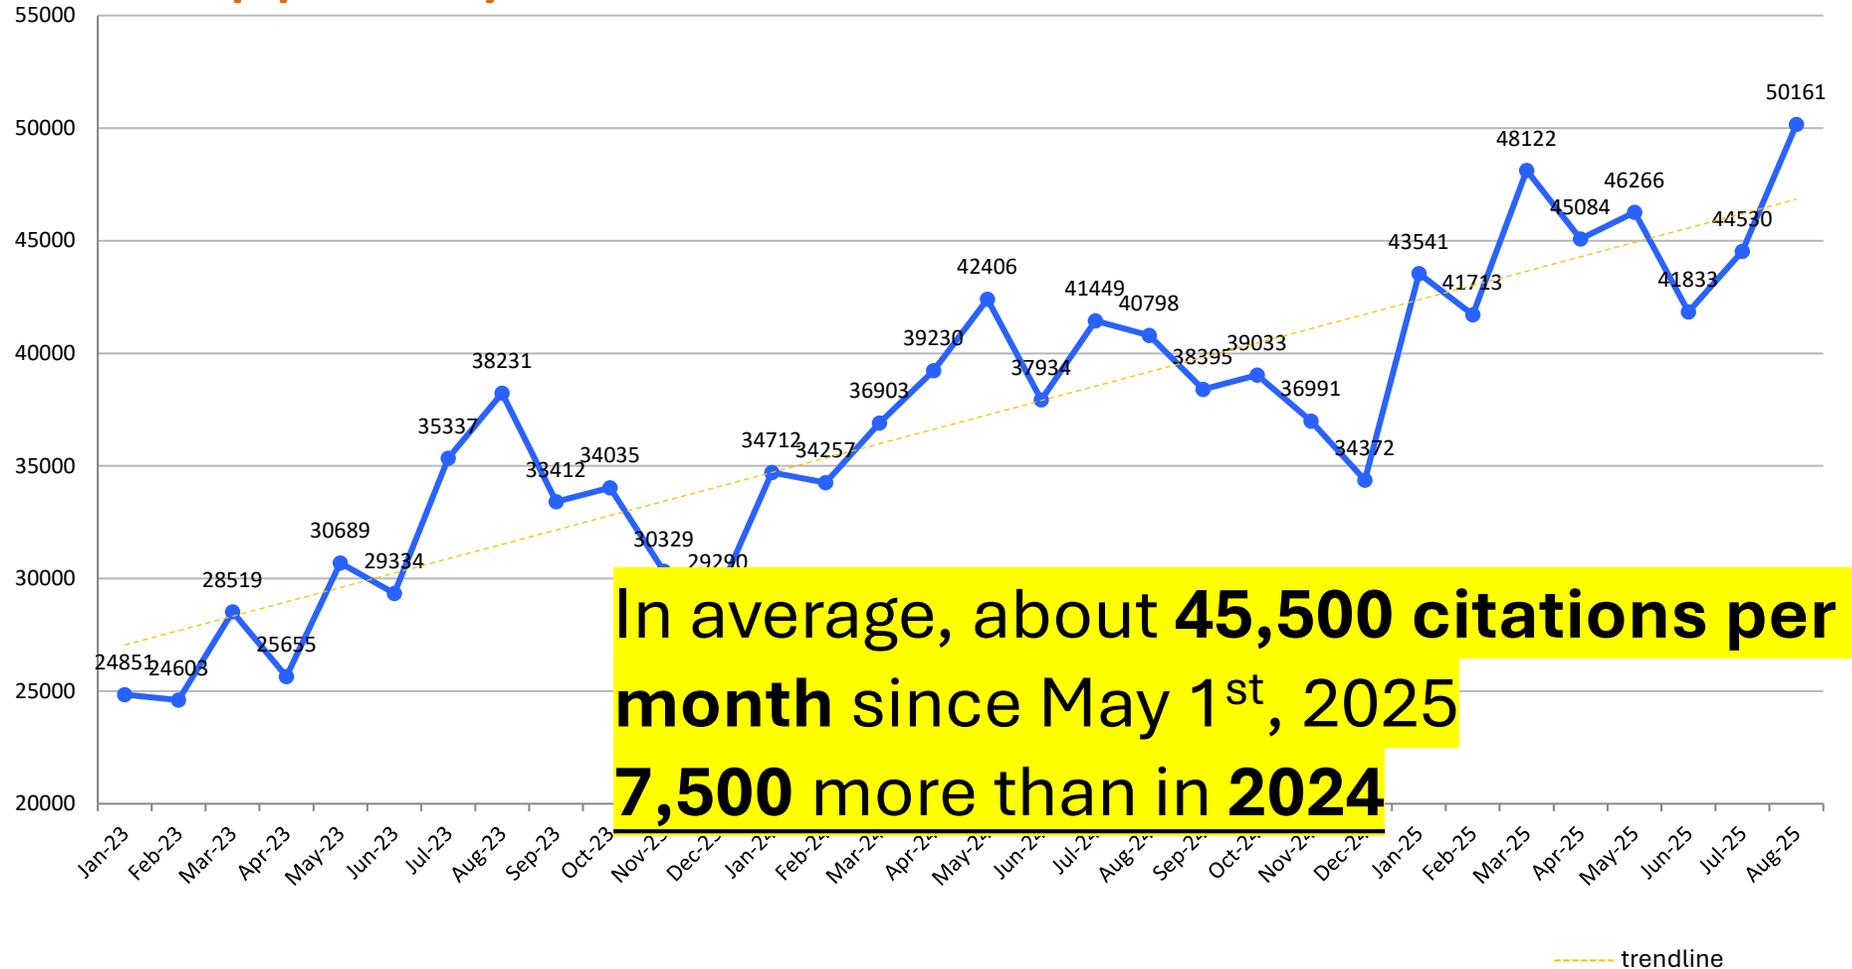

In average, about 8,900 Geolocation users since May 1st, 2025, 800 more than in 2024

Crash Geolocation Agencies

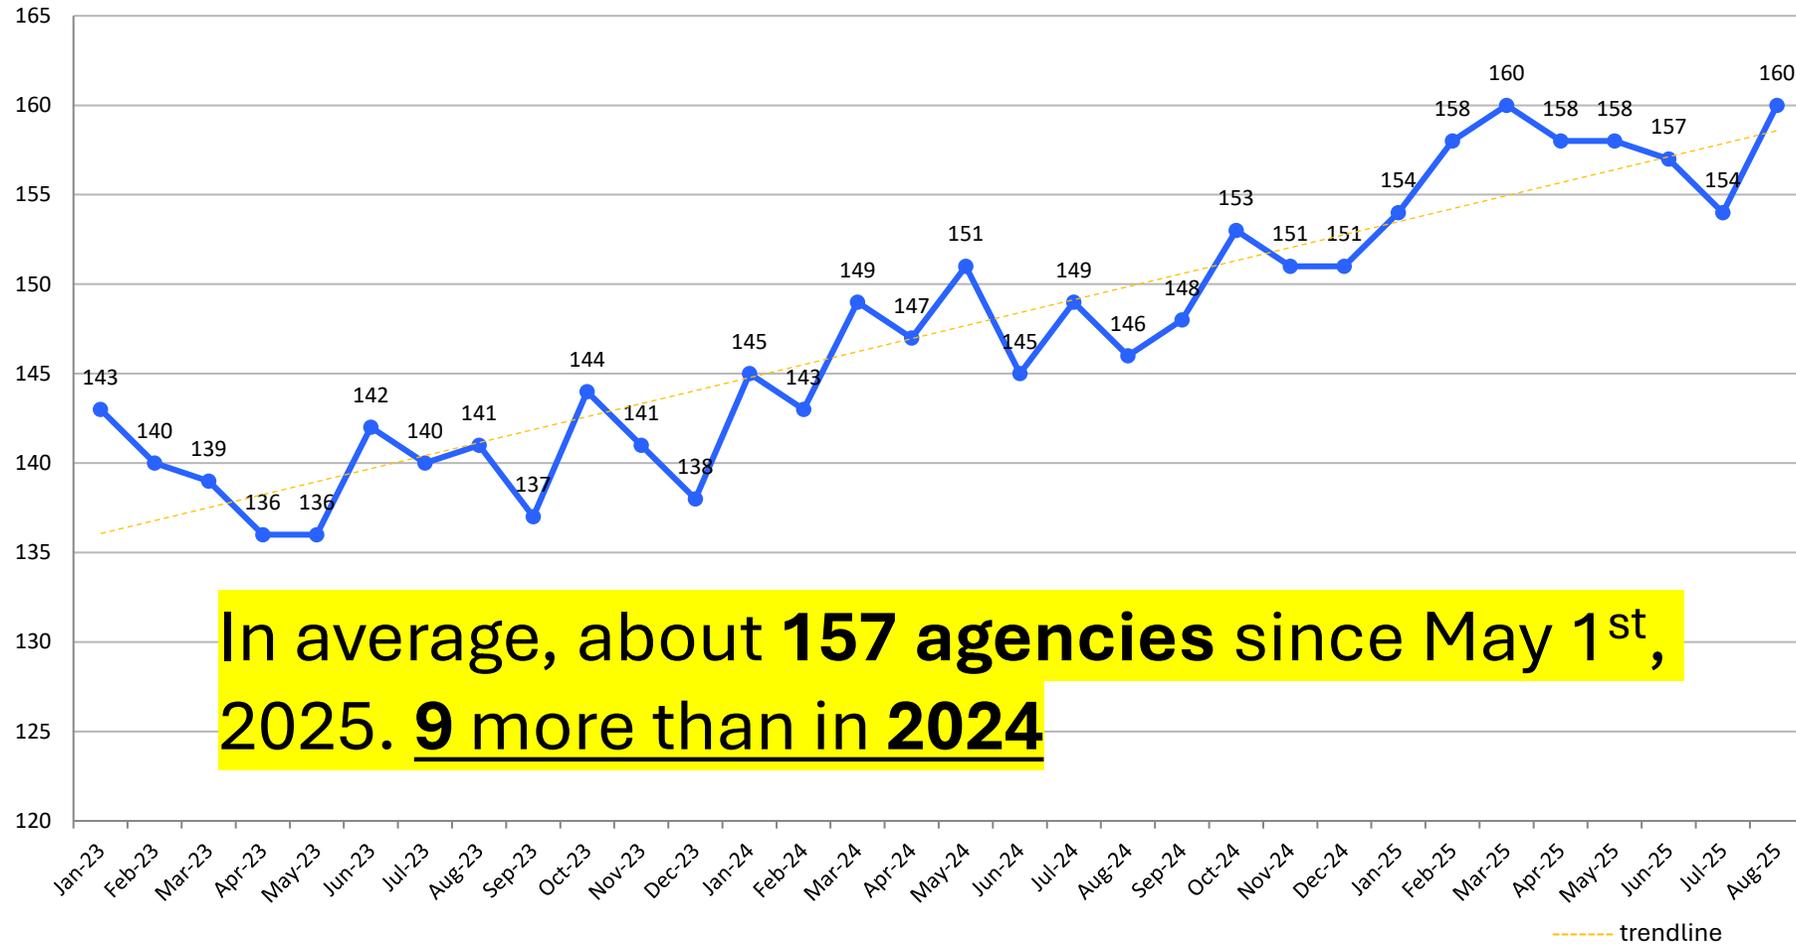

In average, about 198 agencies since May 1st, 2025, 9 more than in 2024

Citations Mapped by Geolocation Tool

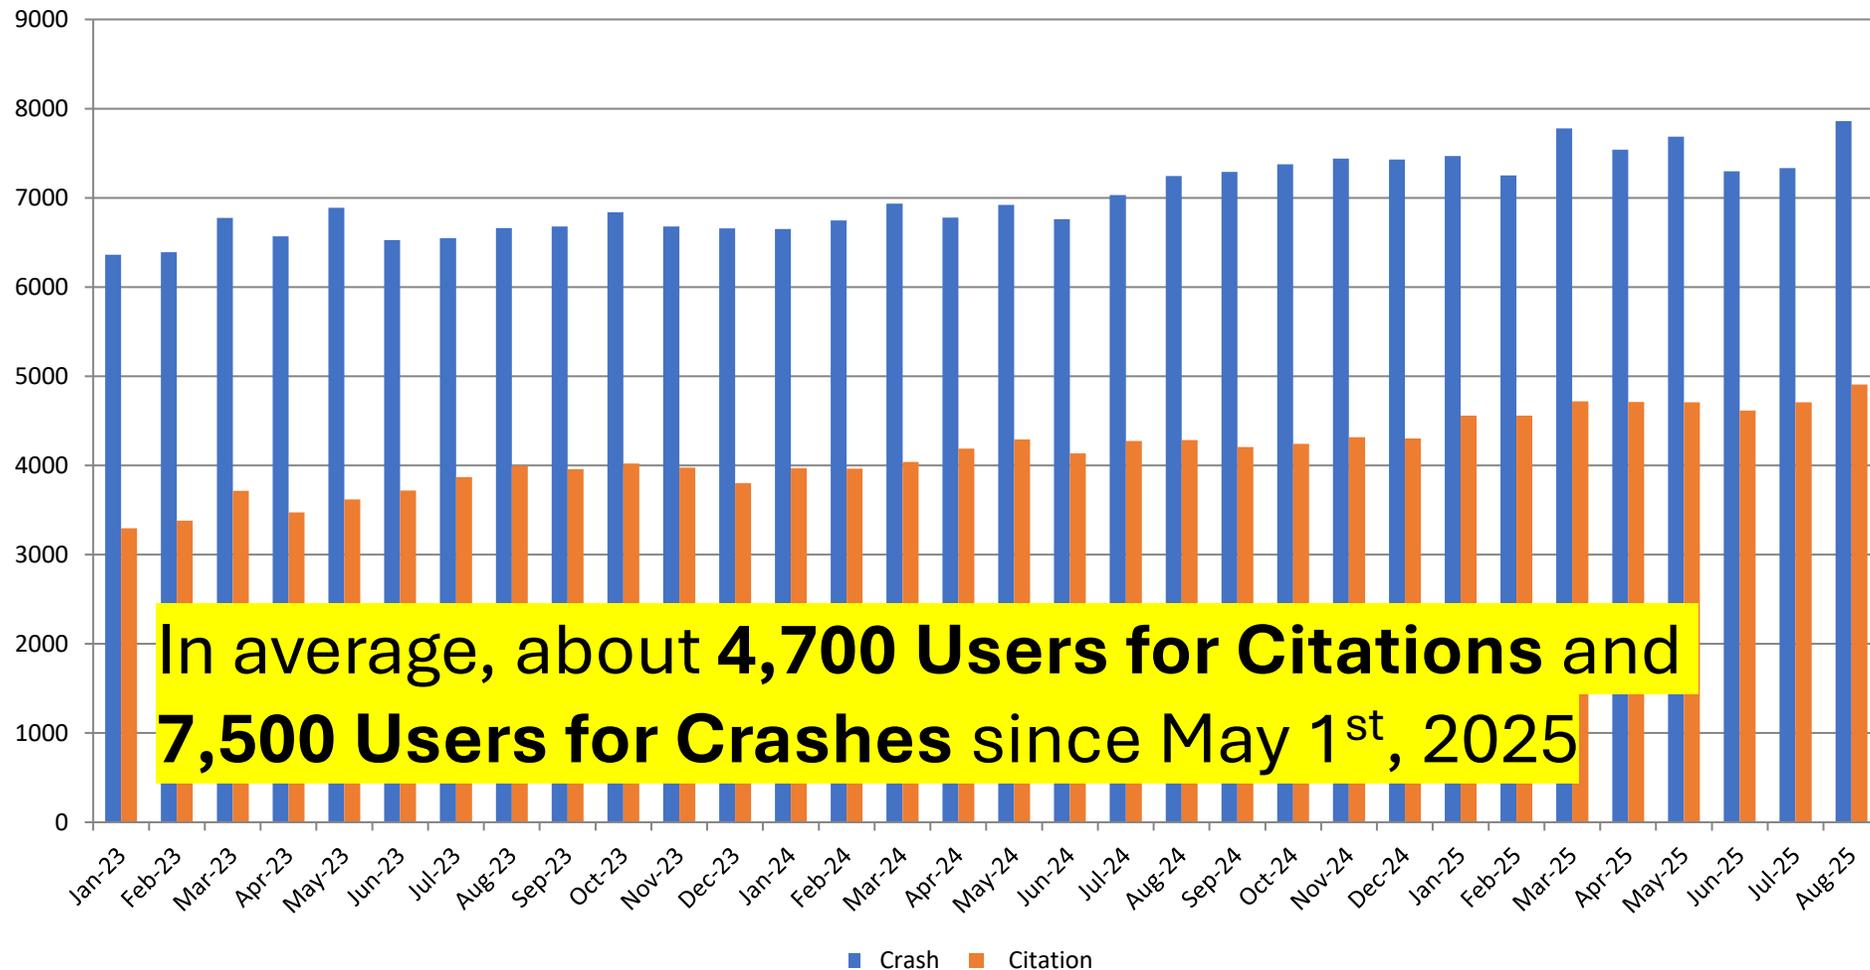

Citations Geolocation Agencies

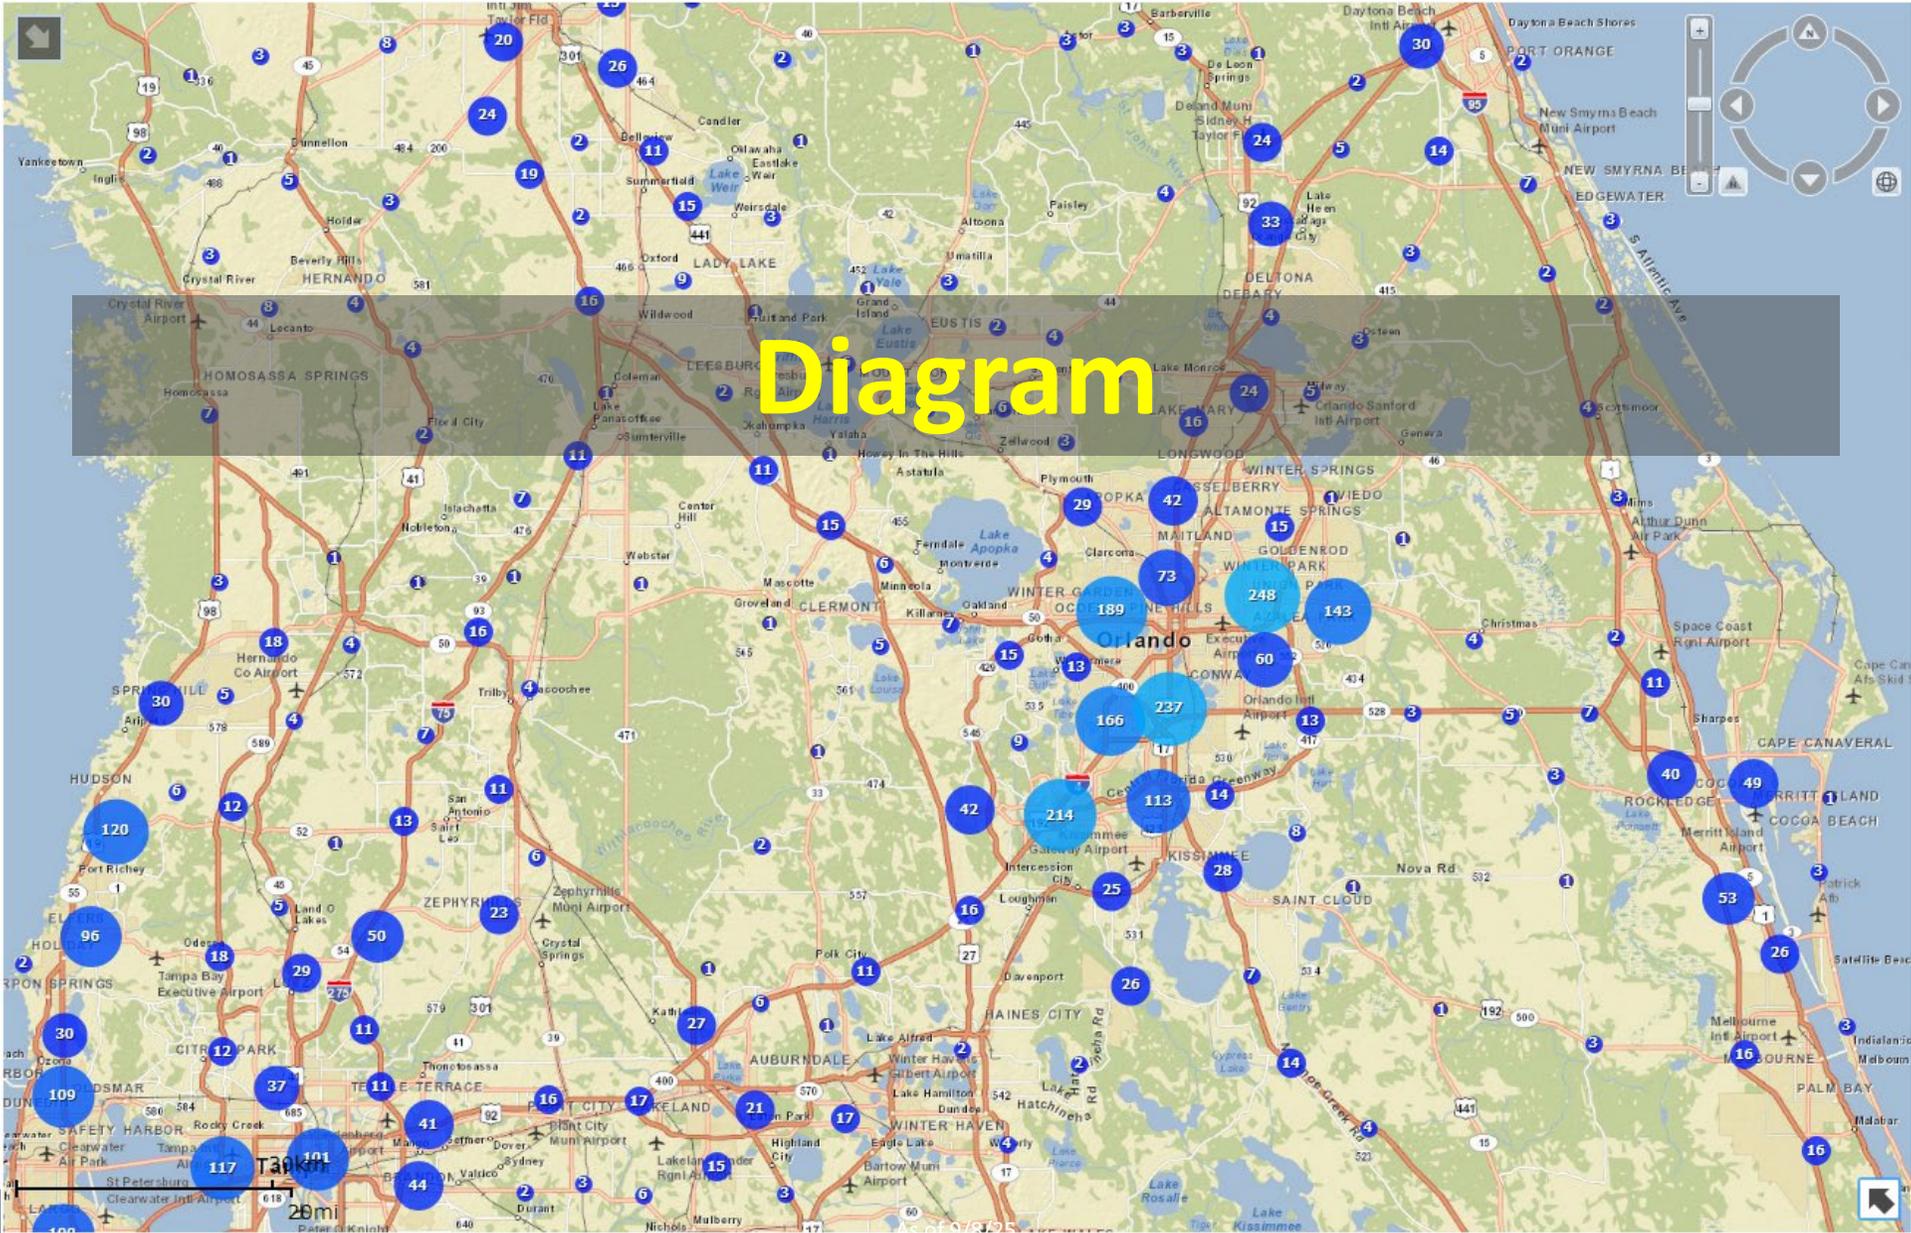

In average, about 157 agencies since May 1st, 2025. 9 more than in 2024

Geolocation Crash vs Citations Users

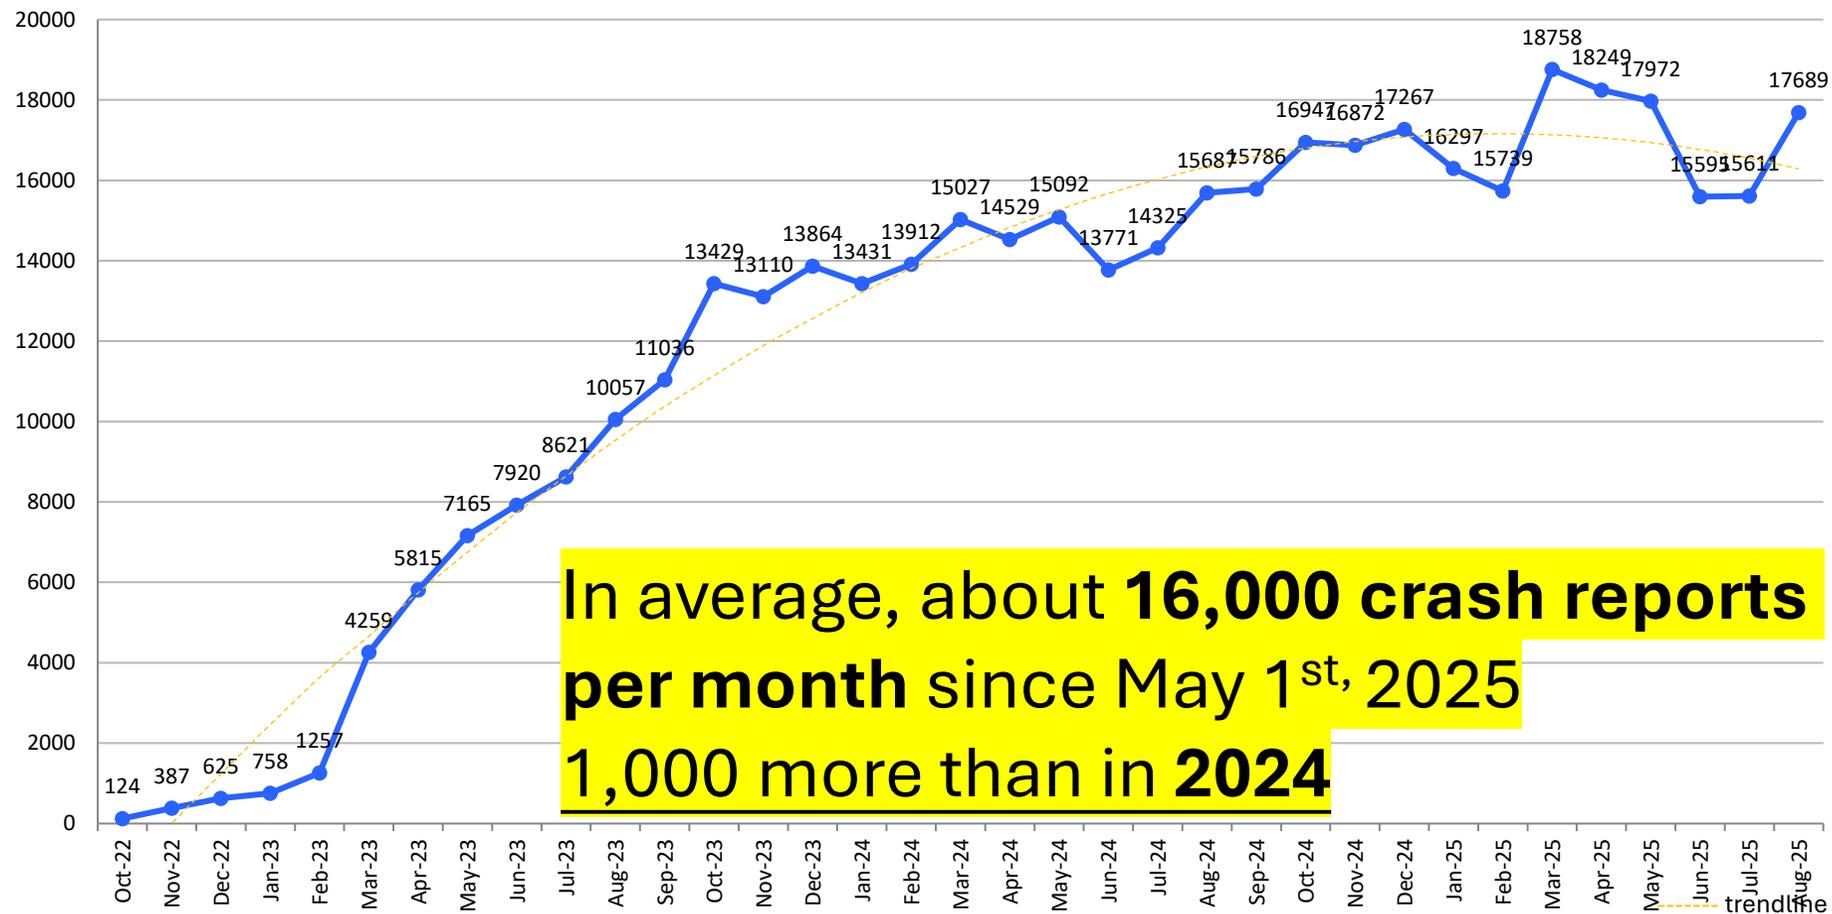

SIGNAL 4 GEOLOCATION & DIAGRAM

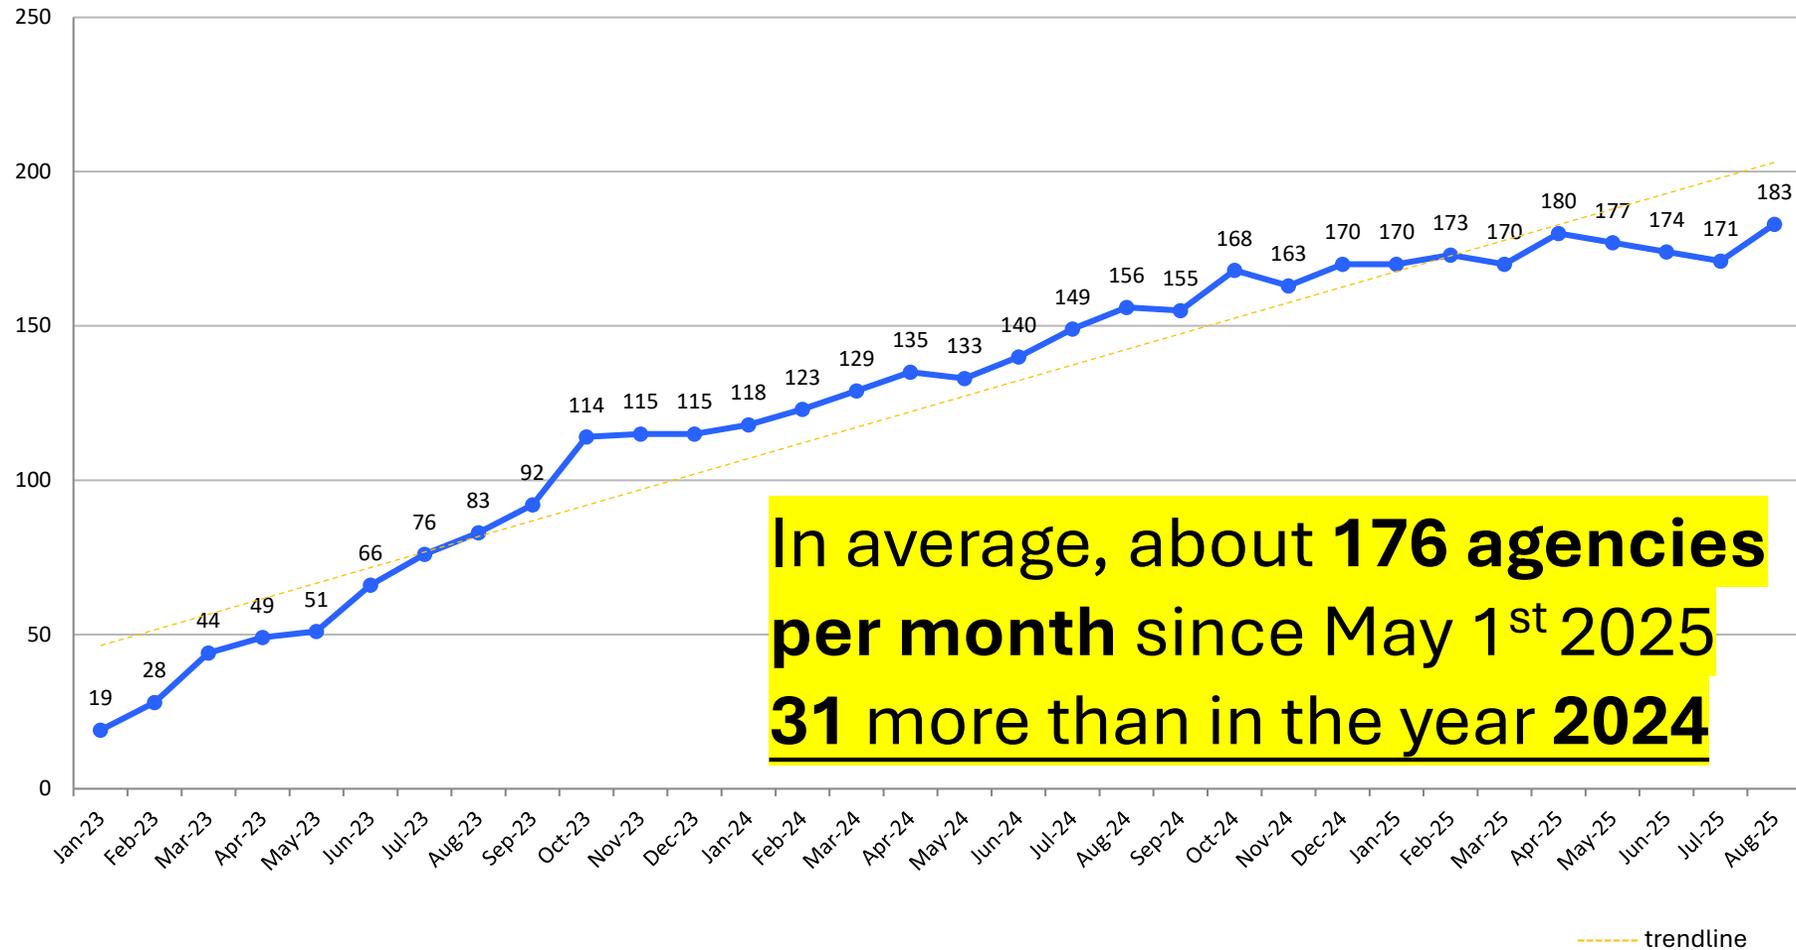

Signal4 Diagram Usage Stats

- **TraCS**
 - **407,000** diagrams since October 2022 launch
 - **66,000** diagrams since May 1st, 2025
 - **201** TraCS agencies are currently using the Signal4 Diagram (96% -201 of 209)

405C PERFORMANCE MEASURE DISCUSSION

Chris Craig, FDOT

NHTSA REQUIREMENTS

- **Quantitative improvement.** The State shall demonstrate quantitative improvement in the data attribute of accuracy, completeness, timeliness, uniformity, accessibility or integration of a core database by providing—
 - (i) A written description of the performance measure(s) that clearly identifies which performance attribute for which core database the State is relying on to demonstrate progress, using the methodology set forth in the “Model Performance Measures for State Traffic Records Systems” (DOT HS 811 441), as updated; and
 - (ii) Supporting documentation covering a contiguous 12-month performance period starting no earlier than April 1 of the calendar year prior to the application due date, that demonstrates quantitative improvement when compared to the comparable 12-month baseline period.

PREVIOUS MEASURES

- FDOH
 - Completeness of EMS/Injury data (i.e., the percentage of Florida’s Public or private entities involved in EMS systems which have been licensed by the State of Florida, who are submitting NEMSIS Version 3 compliant run reports to the FDOH EMS Tracking and Reporting System, EMSTARS) – EMS/Injury/Completeness
- S4
 - Accurately located electronic crash reporting (i.e., the average percentage of accurately located electronic crash reports submitted into Florida Department of Highway Safety and Motor Vehicles (FLHSMV) Crash Master Database by law enforcement agencies utilizing the Geo-Location tool) – Crash/Accuracy
- TraCS
 - Completeness of the percentage of statewide crash reports submitted electronically by agencies using Traffic and Criminal Software (TraCS).

TRACKING TOOL

- Static information: project title, lead agency, funding amount, funding source, project description
- Quarterly updates on objectives based on timeliness, accuracy, completeness, uniformity, integration, accessibility
- Intended to provide options for quantitative improvement submission

MODEL PERFORMANCE MEASURES

- 61 performance measures
- 6 core data systems
- 6 performance attributes

DOT HS 811 441

February 2011

Model Performance Measures for State Traffic Records Systems

MODEL PERFORMANCE MEASURES

Table 1. Distribution of Model Performance Measures

Data System	Performance Attributes						Total
	Timeliness	Accuracy	Completeness	Uniformity	Integration	Accessibility	
Crash	2	2	3	1	1	1	10
Vehicle	2	1	4	1	1	1	10
Driver	2	2	3	1	1	1	10
Roadway	2	1	4	1	1	1	10
Cit/Adj	2	2	3	1	1	1	10
EMS/Injury	2	2	3	2	1	1	11
Total	12	10	20	7	6	6	61

TRACKING TOOL

- Provide quarterly updates to track quantitative improvement
- Quantitative improvement deadline is **May 2026.**

PUBLIC COMMENT

Chris Craig, FDOT

WRAP UP AND NEXT STEPS

Chris Craig, FDOT

WRAP UP AND NEXT STEPS

- Upcoming TRCC Meetings
 - December 5th, 2025
 - March 27th, 2026 – Voting Meeting
 - June 19th, 2026
 - September 18th, 2026

THANK YOU AND SAFE TRAVELS!
